Child Safety Awareness Policy

Version: Current

Responsible Officer: Chief Executive Officer

1. PURPOSE

The Shire of Kellerberrin supports and values all children and young people. Council makes a commitment to support the safety and wellbeing of all children and young people, including protection from abuse. This Child Safe Awareness policy is one of the ways Council demonstrates its commitment to being child safe and a zero-tolerance approach to child abuse.

This policy aims to reduce the risk of harm and child sexual abuse in our communities by encouraging child safe environments to be created and maintained. Council is committed to encouraging local organisations to be child safe and ensure children are safe and empowered.

This Child Safe Awareness policy has been developed in response to recommendation 6.12 of the Royal Commission into Institutional Responses to Child Sexual Abuse and recognises that the Shire of Kellerberrin is uniquely placed within the local community to demonstrate leadership by supporting organisations to be child safe and to protect children and young people from harm and/or abuse. Council will promote the safety and wellbeing of children across the community.

 - creates conditions that increase the likelihood of identifying any harm, and
 - responds to any concerns, disclosures, allegations, or suspicions of harm.
- Note: in the context of local governments, this would involve referring concerns to the Department of Communities or WA Police to respond as appropriate.

Implementation of the National Principles for Child Safe Organisations give effect to the above.

Child safe:	For the purpose of this policy, child safe means protecting the rights of children and young people to be safe by taking actions that can help prevent harm and abuse.
Harm:	Harm, in relation to a child, means any detrimental effect of a significant nature on the child's wellbeing, whether caused by a single act, omission or circumstance; or a series or combination of acts, omissions or circumstances.
Wellbeing:	Wellbeing of children and young people includes the care, development, education, health and safety of children and young people.

**End of Year Surplus Policy****Version: Current****Responsible Officer:** Chief Executive Officer**1. PURPOSE**

The purpose of this policy is to establish parameters for the use of untied surplus funds at the end of each financial year as identified through the Annual Budget adoption process.

2. SCOPE

This policy is applied to the Shire of Kellerberrin and its elected members and employees.

3. DEFINITIONS**4. STRATEGIC CONTEXT**

This policy links to core drivers:

- a) Relationships that bring us tangible benefits(to the Shire and our community)
- b) Our lifestyle and strong sense of community
- c) We are prepared for opportunities and we are innovative to ensure our relevancy and destiny

5. POLICY STATEMENT

As part of the Annual Budget process the Council must calculate its end of year financial position, or surplus/deficit as a starting point for the following year's budget.

Included in this calculation are projects which have not been completed in the previous financial year and in most cases, these items are carried forward for expenditure in the following financial year. However, budget savings which have been achieved which cannot be readily identified at the end of the financial year are known as an "untied surplus".

The Council recognises that the allocation of untied surpluses is an important aspect in discharging its financial management responsibilities. The Council recognises that untied surpluses will not be used to offset the future annual operating costs of the Council, being allocated after the completion of the Annual Financial Report.

Principles:

Naming of Council Facilities

Responsible Officer: Chief Executive Officer

1. PURPOSE

The purpose of this policy is to establish a framework for the naming of Council buildings and parks; and to determine the process for considering a name change of Council property.

2. SCOPE

This policy is applied to the Shire of Kellerberrin Community.

3. DEFINITIONS

4. STRATEGIC CONTEXT

This policy links to core drivers:

- a) Relationships that bring us tangible benefits(to the Shire and our community)
- b) Our lifestyle and strong sense of community
- c) We are prepared for opportunities and we are innovative to ensure our relevancy and destiny

5. POLICY STATEMENT

This policy outlines the philosophy and process for the naming of:

- Towns, localities, streets and parks;
- New Council buildings, gardens, memorials and other infrastructure or council-owned amenities; and
- The re-naming of existing council buildings, gardens and other infrastructure or council owned properties.

Council recognises that the names of buildings, gardens, parks and reserves owned by the Shire can have significant influence on the future development and sense of community within an area. With this in mind, it has determined that the naming of facilities, buildings and amenities under the control of the Shire will be undertaken in a planned and coordinated way which respects and acknowledges the area's history, heritage and environment.

Naming of Towns, Localities, Streets and Parks – General

The Chief Executive Officer shall arrange for the naming of streets and reserves, and the allocation of house numbers.

Council will follow the principles and guidelines for the general naming of streets, parks, roads, towns localities, as determined by the Geographic Names Committee of Western Australia, and set out by Landgate.

While in general, Parks and Reserves shall be named after an adjacent boundary road, and buildings and facilities shall be named after the locality in which they reside or after an adjacent road, where possible, to facilitate ease of identification, alternatives may be developed using the following principles.

Principles of Naming Facilities

When proposing names for facilities developed and owned by the Shire, the following will be taken into consideration:

The locality within which the development is situated; Any historical events associated with or near the site; Indigenous and cultural heritage relevant to the site; Community or corporate sponsorship; Marketing opportunities

- Pioneering families (family names only) associated with the immediate area (5-10 kilometres radius);
- Social or calendar events; and
- Significant individuals who have contributed substantially to the community.

Procedures for Naming New Facilities

The naming of new facilities will be undertaken in a timely and coordinated fashion.

Due process will be given to the consideration of any proposed name for any new facility.

Where a new facility is being developed/constructed, elected members and the community may suggest, in writing, names for the facility and the reasons for the suggestion. Where it is proposed to name the facility after a person who is no longer living and who made a significant contribution to the community, it is a requirement that background information on that person be provided as part of the written material.

In the event that a name or names are suggested other than a name relating to the locality or prime function of the facility, using the criteria listed above, the Chief Executive Officer will prepare a confidential report on the proposed names. Elected members will be invited to select their preferred option through a ballot system based on 'first-past-the-post'. If an absolute majority preference is not achieved through this process, the secret ballot will be recast, based on the two (2) most popular choices.

Criteria for renaming an existing facility

The Shire recognises that from time to time it may be appropriate to rename a Shire owned facility.

When considering options for re-naming Shire of Kellerberrin facilities, in addition to the criteria listed in Section 2 (above), the following will also be considered:

- The historical reasons for the original name;
- The public profile/familiarity of the facility's original name;
- The costs associated with changing the facility's name; and
- The relevance to the facility's main user group of the proposed new name.

Proposing the Renaming of a facility

Any resident or elector of the Shire of Kellerberrin may propose the renaming of a Council facility, but a proposal by an elector must be supported in writing by an elected member. Nominations must be made in writing to the Chief Executive Officer.

On receipt of a nomination the Chief Executive Officer will cause a report to be prepared based on the naming criteria identified in this policy. The report shall be circulated to all elected members for confidential, informal discussion. If an elected member expresses an objection to the nomination that elected member must give reasons for the objection. If no elected member objects to the report's recommendation, it shall be assumed that all agree to the proposal. An objection received will not necessarily invalidate the nomination subject to agreement by the majority of Council.

Recognition of Community Members

In instances where the renaming proposal relates to recognising a member of the community who, in their lifetime, demonstrated outstanding contributions to the Shire of Kellerberrin, the following criteria will be required to be met:

- Persons nominated should have made substantial contribution directly to the Shire of Kellerberrin, largely in a voluntary capacity;
- The nominee must have given extensive and distinguished service to the community that goes beyond the particular Local Government Authority concerned (e.g. service to other organisations, voluntary and community groups, school P&C etc.) in a largely voluntary capacity;
- The service should be easily recognisable as having a direct benefit to the Shire of Kellerberrin and have produced substantial long term improvement for the Shire of Kellerberrin.

- Nominees should have lived within the Shire of Kellerberrin for a significant number of years (significant would usually mean at least 20 years) and had a long and close association and identification with the Shire of Kellerberrin.

The person making a nomination to re-name a facility after an individual will provide sufficiently detailed background information to enable the Chief Executive Officer to prepare a report on the proposal which considers the criteria listed in this policy.

Being a former Councillor or former Member of Parliament is not sufficient grounds on which to nominate an individual. (In the event that the nominee is still living, the nomination must be made in the strictest confidence without the nominee's knowledge). Death or former ownership of the land on which the facility is developed is not normally acceptable as criteria for nomination.

Process on Receipt of a Nomination

On receipt of a proposal to rename an existing facility, the Chief Executive Officer will cause a report to be prepared and circulated on a confidential basis to elected members for consideration. On the written advice of at least four elected members the report and recommendation shall be put to Council for consideration.

In the event that less than four elected members support the proposed name change, the Chief Executive Officer will advise the person who proposed the name change accordingly.

1. PURPOSE

The purpose of this policy is to communicate the Shire of Kellerberrin's commitment to a zero tolerance approach to misconduct, fraud and corruption.

This policy also establishes the Shire's commitment to maintaining high standards of professional and ethical conduct by supporting strategies that prevent, detect and respond to misconduct, fraud and corruption.

2. SCOPE

This policy seeks to apply a regional variation to the deemed-to-comply provisions for outbuildings within *State Planning Policy 3.1 - Residential Design Codes* (R-Codes) by allowing for greater floor area, ridge and wall heights within the specified zones. Outbuildings need to be sensitively located and designed so as not to impact on the amenity of nearby residents, the streetscape, and the character and environmental attributes of the area. Therefore, this policy seeks to ensure that outbuildings are constructed to a high standard, and are suitably sized and located relevant to their context so as to not adversely impact on the surrounding area.

5. POLICY STATEMENT

The Shire of Kellerberrin, as enabled under the *Planning and Development (Local Planning Schemes) Regulations 2015*, Division 2, Schedule 2 of the deemed provisions, hereby makes this Local Planning Policy (LPP) regarding Outbuildings. Clause 3(1) of the deemed provisions allows for a local government to prepare a local planning policy in respect of any matter related to the planning and development of the Scheme area.

Any LPP prepared under this part shall be consistent with the Scheme and if any inconsistency arises the Scheme shall prevail.

A LPP is not part of the Scheme and shall not bind the Local Government in any respect of any application for development approval, but the local government shall have due regard to the provisions of any policy, and the objectives which the policy is designed to achieve before making its decision.

This LPP applies to the Residential, Rural Residential and Rural Townsite zones within the Scheme area.

Background

Outbuildings are often a necessary requirement for landowners within the Shire, as they support a variety of rural land uses. As lifestyle patterns and domestic storage needs have evolved there is a trend toward the construction of larger outbuildings within the Shire.

This policy seeks to apply a regional variation to the deemed-to-comply provisions for outbuildings within *State Planning Policy 3.1 -Residential Design Codes* (R-Codes) by allowing for greater floor area, ridge and wall heights within the specified zones. Outbuildings need to be sensitively located and designed so as not to impact on the amenity of nearby residents, the streetscape, and the character and environmental attributes of the area. Therefore, this policy seeks to ensure that outbuildings are constructed to a high standard, and are suitably sized and located relevant to their context so as to not adversely impact on the surrounding area.

Objectives

The objectives of this policy are:

- To vary the deemed-to-comply provisions of the R-Codes for Design Principles 5.4.3 - Outbuildings;
- To provide flexibility for outbuilding size, construction and materials to meet the needs of local residents;
- To ensure that outbuildings are constructed to a suitable standard and located in such a way as to minimise their impact on the amenity of the locality or adjoining properties, including the protection of natural vegetation, water quality and bushfire risk;
- To ensure outbuildings constructed within the Shire are consistent with relevant zone objectives outlined in the scheme; and
- To provide further clarity on the definition of an outbuilding.

Application

This policy applies to the assessment of outbuildings on land in the Scheme area within the following zones:

- Residential
 - Rural Residential; and
 - Rural Townsite;
- (i) A person must not commence the construction of an outbuilding on land within the above zones in the Scheme area unless the person has obtained development approval of the Council; or
 - (ii) the development is of a type that is referred to in Section 6.1.2 of this policy.

The following provisions are intended to guide and regulate the design and positioning of outbuildings to ensure a balance between legitimate forms of storage requirements of landowners and potential amenity

and landscape impacts. For the purposes of this policy, sea containers, animal feed bins, dongas and water tanks do not constitute an outbuilding.

This policy does not apply to the Town Centre zone; outbuildings in this zone are regulated by the R-Codes as permitted under Clause 4.2 of the Scheme. Outbuildings in the Industrial zone will be considered on a case-by-case basis and require Council approval.

Exemptions from Development Approval

Under Clause 61(1)(i) of Schedule 2 of the deemed provisions, the following exemptions from development approval apply:

- Development approval of the Shire is not required for the development of an outbuilding with an area of 10m² or less.
- Development approval of the Shire is not required for the development of an outbuilding with an area of greater than 10m², provided that it complies with the maximum development requirements outlined within Section 7 of this policy, in the Residential, Rural Residential and Rural Townsite zones.
- Development approval of the Shire is not required for the development of an outbuilding in the general agriculture zone, providing the development adheres to the provisions of the Scheme.

Development approval is required if located in a place that is:

- entered in the Register of Heritage Places under the *Heritage of Western Australia Act 1990*;
- the subject of an order under the *Heritage of Western Australia Act 1990*;
- included on a heritage list prepared in accordance with the Scheme;
- within an area designated under the Scheme as a heritage area;
- the subject of a heritage agreement entered into under the *Heritage of Western Australia Act 1990, Section 29*; and/or
- on a lot abutting an unconstructed road, or a lot which does not have frontage to a constructed road.

Maximum Development Requirements

Maximum standards for outbuildings in R-Coded areas

(Includes: Residential, Rural Residential and Rural Townsite zones as seen on Scheme Map)

The following variations to the deemed-to-comply requirements of Part 5.4.3, C3 iii, iv and v of the R-Codes, shall apply in these R-Coded areas:

Outbuildings shall be located in cleared areas, behind the main residential building line in accordance with Schedule 1 of this policy.

The gross total area is cumulative.

Appearance and other standards

The use of second-hand materials will only be permitted where the materials are in good condition and are sympathetic to the surroundings and finish of the existing dwelling on the development site. The Shire may require a structural engineer report for use of second-hand materials.

Outbuildings that do not comply with the maximum development requirements will not be supported unless detailed justification can be provided for proposed variations.

Use of Outbuildings

Outbuildings shall only be used for incidental uses associated with a residential use and/or rural purpose.

The Shire may grant approval for the use of an outbuilding to accommodate a caravan for the purposes of temporary accommodation for a period not exceeding twelve (12) months, where a building permit has been approved and work has substantially commenced on the development site.

Complaint about alleged Breach

A local government, in accordance with Section 5.103(1) of the *Local Government Act 1995*, is required to adopt a Code of Conduct to be observed by Council members, Committee members and employees. The Code of Conduct is to contain matters as prescribed by Regulations and can also make further provision for expectations of Council members, Committee members and employees.

The Code of Conduct is a statement of guidance for Council members that is supplementary to the enforceable rules in the *Local Government (Rules of Conduct) Regulations 2007*. It is also a statement of guidance and specific requirements to be observed by Committee members and employees of the Shire.

The Code of Conduct is to apply, insofar as it is applicable to each type of person, to every Council member, Committee member and employee of the Shire. Any provision in this Code of Conduct is of effect only to the extent that it is not inconsistent with the Act and Regulations, and any other statutory power.

This Code of Conduct does not seek to replicate the role of or requirements for Council members, Committee members or employees contained in other legislation, including but not limited to the *Local Government Act 1995* and the *Local Government (Rules of Conduct) Regulations 2007*. The Guiding Statements of Responsibility section of the Code requires individuals to be aware of their obligations.

Obligation to observe

Council members

The obligation to observe a Code of Conduct for Council members arises from the *Local Government Act 1995* s.5.103 and a declaration that they have made to observe that code or the Rules of Conduct Regulations, upon election to the Council at a swearing in ceremony before a Justice of the Peace or a person authorised by the *Oaths, Affidavits and Statutory Declarations Act 2005* to take statutory declarations.

Further to that, aspects of the Code of Conduct are also linked to the *Local Government Act 1995* and associated Rules of Conduct Regulations which are enforceable in their own right.

Committee members

The obligation for Committee members (that are not also Council members) to observe a Code of Conduct arises from the requirement in the *Local Government Act 1995* s.5.103.

Committee members are appointed to their positions by the Council in accordance with the Act s.5.10 and can also be removed from the office by the local government in accordance with the Act s.5.11(2)(b).

Employees

The obligation for employees to observe a Code of Conduct arises from –

- the *Local Government Act 1995* s.5.103,
- the *Local Government (Administration) Regulations 1996* r. 34B and 34C, and
- the terms and conditions of their employment with the Shire.

The observance of Council policies is a key responsibility of any employee and any breach of those responsibilities could incur disciplinary action, including termination, via the management framework established in accordance with the CEO's responsibilities under Section 5.41(g) of the *Local Government Act 1995*.

Breach of certain provisions

Where a requirement in the Code of Conduct is prescribed in an Act or Regulations, any alleged breach

may be investigated by another statutory body, including but not limited to –

The following sections of the Code of Conduct will address specific matters of conduct and, as necessary, provide specific direction on actions that must be taken when and as a matter arises by a person acting in a specific role.

Council members

Specific rules for Council members are defined in part 2 of the *Local Government (Rules of Conduct) Regulations 2007*.

Further to that, Council members are to recognise their role as distinguished from that served by employees of the Shire, and the Council (ie in its convened state).

Council members when interacting with employees of the Shire in their capacity as a Council member

shall observe the protocol of making requests for information and discussing the business of the Council with the relevant senior employee and/or the identified responding employee or officer during any organised briefing session for a matter before the Council for consideration. The liaison between individual Council member and individual employee on matters of local government business shall be conducted in a respectful, courteous and honest manner.

Committee members

a) Disclosure of interest

The disclosure of any interest that could, or could reasonably be perceived to, affect the impartiality of a Committee member carrying out their role shall be made, insofar as the provisions can relate to Committee members, in accordance with the requirements for employees in this Code of Conduct.

An interest to be disclosed may be one that is a benefit or a detriment to the Committee member.

b) Gifts

If a Committee member is offered a gift of any description in connection with the performance of their role as a Committee member, the member shall seek advice in relation to that offer from the CEO of the Shire, or nominated representative, before accepting any gift. The advice provided shall be in accordance with the requirements for elected members and employees.

c) Confidential information

A Committee member must not disclose confidential information obtained in the performance of their duties to any other person outside of the Committee or relevant Local Government employees.

For the purposes of this section, confidential information is that which is discussed during a meeting or that part of a meeting that is closed to members of the public in accordance with the provisions of the *Local Government Act 1995*, or that is in a document of the local government that is marked confidential.

Committee Members must not, unless undertaking a duty in accordance with their position, disclose information, make comments or engage in communication activities about or on behalf of the Shire of Kellerberrin, or its representatives, which breach this Code.

Any imparting of such information must be undertaken in strict accordance with the requirements of this code. Where there is any doubt as to the requirement to impart confidential or sensitive information, caution is urged as any unauthorised disclosure of such information is considered a serious breach of responsibilities.

d) Use of local government resources

A Committee member shall make proper use of the local government's resources as allocated to the Committee, including but not limited to assistance from employees, stationary, access to the office and meeting rooms of the local government, and only for the purposes of advancing the work and requirements of the Committee in accordance with its Terms of Reference.

e) Relationships with the local government

Committee members shall not direct or attempt to direct any local government employee to do or not to do anything.

Employees of the local government will be allocated where and as necessary to assist a Committee with its required tasks. It is expected that Committee members and employees with any responsibility in relation to that Committee will work together with a spirit of cooperation and understanding.

A Committee or Committee member shall not undertake tasks that contribute to the administration of the local government, except those tasks that are the direct responsibility of the Committee in accordance with its Terms of Reference and Council policies relating to Committees. It is noted that Council considers members of its Management and Advisory Committees as working

members and thus they are to contribute to the body of work required to be done by the Committee.

Employees

a) Disclosure of interest

Interest – Any interest that could, or could reasonably be perceived to, adversely affect the impartiality of the person having the interest and includes an interest arising from kinship, friendship or membership of an association.

This section does not apply to interests referred to in Section 5.60 of the Local Government Act 1995 (in that a financial interest or a proximity interest must be disclosed in the manner described in Division 6 of Part 5 of that Act).

An employee is excused from a requirement under (i) or (ii) to disclose the nature of an interest if –

- the employee's failure to disclose occurs because they did not know that he or she had an interest in the matter; or
- the employee's failure to disclose occurs because the employee did not know the matter in which he or she had an interest would be discussed at the meeting and the employee discloses the nature of the interest as soon as possible after becoming aware of the discussion of a matter of that kind.

Any interest that arises for an employee on a matter before the Council or a Committee for determination is required to be disclosed in the manner specified in (i) or (ii). However, in recognition of the requirements discharged by employees during the course of their employment, including but not limited to the exercise of delegated authority, purchasing and tender evaluation, recruitment and selection, inspection and regulation, interests shall also be disclosed in other circumstances.

Disclosures are required to be made to the CEO in these circumstances –

- (i) An employee who has an interest in any matter to be discussed at a Council or Committee meeting attended by the employee is required to disclose the nature of the interest –
 - in a written notice to the CEO before the meeting; and/or
 - at the meeting immediately before the matter is discussed.
- (ii) An employee who has given, or will give, advice in respect of any matter to be discussed at a Council or Committee meeting not attended by the employee is required to disclose the nature of any interest the employee has in the matter –
 - in a written notice given to the CEO before the meeting; and/or
 - at the time the advice is given.
- (iii) If in order to comply with the requirements of (i) or (ii) an employee makes a disclosure in a written notice given to the CEO before a meeting, then –
 - before that meeting the CEO is to cause the notice to be given to the person who is to preside at the meeting;
 - immediately before a matter to which the disclosure relates is discussed at the meeting, the person presiding is to bring the notice and its contents to the attention of the persons present.
- (iv) If in order to comply with the requirements of the section –
 - the nature of an employee's interest in a matter is disclosed at a meeting; or
 - a disclosure is made at a meeting if it is realised that an employee has an interest in a matter that they had not previously realised was for discussion at that meeting; or
 - the presiding member brings to the attention of those present at the meeting a written disclosure; then the nature of the interest is to be recorded in the minutes of the meeting.
- (v) If during the course of discharging the requirements of their employment, an employee becomes aware of an interest or a potential interest, that interest or potential interest is to

be disclosed in a prompt and full manner to the CEO and direction sought on the ability to continue to discharge the requirements of their employment in this case.

- (vi) If an employee is intending to engage in private work outside of their employment with the Shire, either with a person or body with an interest in a proposed or current contract with the local government, or if the arrangement could, or could reasonably be perceived to, either immediately or in the future, result in an interest for the employee arising in their employment with the Shire, the intention to engage in this work shall be disclosed in a prompt and full manner to the CEO and direction sought on the appropriateness of the arrangement.

c) Gifts

- (i) Employees are required to refrain from accepting a prohibited gift from a person who-
- is undertaking or seeking to undertake an activity involving a local government discretion; or
 - it is reasonable to believe is intending to undertake an activity involving a local government discretion.
- (ii) An employee is required to notify the CEO of the acceptance within 10 days of accepting the gift, when the gift is a notifiable gift from a person who –
- is undertaking or seeking to undertake an activity involving a local government discretion; or
 - it is reasonable to believe is intending to undertake an activity involving a local government discretion;

d) Confidential information

Employees must not access, use or disclose information held by the Shire of Kellerberrin except as directly required for, and in the course of, the performance of their duties. Employees will handle all information obtained, accessed or created in the course of their duties responsibly, and in accordance with this Code, the Shire's policies and procedures.

Employees must not, unless undertaking a duty in accordance with their employment, disclose information, make comments or engage in communication activities about or on behalf of the Shire of Kellerberrin, its Council Members, employees or contractors, which breach this Code.

The handling of confidential or sensitive information is a significant responsibility for employees with authorised access to such information. Any imparting of such information must be undertaken in strict accordance with the requirements of this code. Where there is any doubt as to the requirement to impart confidential or sensitive information, caution is urged as any unauthorised disclosure of such information is considered a serious breach of the employee's responsibilities.

Employees must not access, use or disclose information to gain improper advantage for themselves or another person or body, in ways which are inconsistent with their obligation to act impartially and in good faith, or to improperly cause harm, detriment or impairment to any person, body, or the Shire.

Nothing in this section enables the disclosure of any confidential or sensitive information to any Council member or Committee member if the information does not directly relate to a confidential matter that is on the agenda for a meeting of the Council or the Committee, nor to any employee who is not empowered or required by virtue of their position in the organisation to have that information.

Employee comments which become public and breach the Code of Conduct, or any other operational policy or procedure, may constitute a disciplinary matter and may also be determined as misconduct and be notified in accordance with the Corruption, Crime and Misconduct Act 2003

e) Use of local government resources

An employee shall make proper use of the Shire's resources and shall not use them for personal or private purposes, unless the use is otherwise provided for in a contract of employment, or authorised by the CEO by some other means.

It is acknowledged that minor incidental (not primary and not majority) use of certain resources will be provided for in operational requirements. An example of this would be to conduct an internet search or check a personal email account on a Shire computer during a designated break. This type of minor incidental use is provided for in the Shire's email and internet practice, whereby it is stated these facilities are for almost exclusive business use.

f) Relationships with Council members and Committee members

Employees are employed by and responsible to the CEO. While their direction, supervision and management is the sole responsibility of the CEO in accordance with Section 5.41(g) of the *Local Government Act 1995*, it is also recognised that the CEO has a responsibility to the Council to ensure employees provide it with relevant and quality advice.

Employees shall therefore be aware of their duty to, via the CEO, provide relevant and quality advice to the Council and Committees. They shall also act courteously and with due respect during their dealings with the Council, any Committee, any Council member or Committee member. It is expected that employees will deal with each other, Council members and Committee members in an honest and respectful manner.

g) Administrative practices

As an overarching principle of employment, employees, in attending to their duties for the Shire in their required and normal hours of employment including approved overtime, shall give their full attention to their duties and requirements throughout that time to ensure that their work is carried out efficiently and effectively. Employees shall comply with any lawful and reasonable order given by any person having the authority to make or give such an order, noting the restrictions on elected members or Committee members in relation to directing local government employees. They will also give effect to the lawful decisions of the Council in a prompt and effective manner.

5. POLICY STATEMENT

Council recognises that Community engagement is the cornerstone to good governance practice and key to the long term prosperity of the community. Council is therefore committed to transparent, two-way communication and appropriate consultation to inform of opportunities and decisions that affect the current and future needs of the Kellerberrin community.

This commitment is founded on the core values identified by the International Association for Public Participation (IAP2) which are:

- being open and transparent about the decision-making process and the challenges and opportunities to be met;
- seeking to involve those community members potentially affected by, or interested in, a decision as early as possible in the decision-making process;

- ensuring that the methods used are well suited to generate highly-effective and inclusive community engagement from a broad section of the community;
- providing information that is clear, easy to understand, and accessible to the community;

In planning a Community engagement process, Council will determine at which level to engage, the nature and methods of the engagement and what corresponding commitment is to be made to the community and/or stakeholders.

Furthermore, the level of engagement that is selected is to govern how feedback from the Community is used at Council and within Council's decision-making process. Such decision-making processes may be influenced by several factors such as financial and resource considerations, political directives and environmental and social concerns. As such if a difference occurs between the level of engagement and the Council's final decision, the reasons will be clearly stated.

There is no 'one-size fits all' approach to community engagement activities and a variety of methods are likely to be required to cater for the different purposes of engagement as well as the broad range of groups and individuals in the community.

The conduct of Community engagement is the responsibility of all Council service areas, teams and employees as appropriate to their role and function. To ensure the effective application of community engagement across the Shire of Kellerberrin, Community engagement guidelines tools; and templates are developed.

COVID-19 Financial Hardship Policy

Version: Current

Responsible Officer: Chief Executive Officer

1. PURPOSE

To give effect to our commitment to support the whole community to meet the unprecedented challenges arising from the COVID19 pandemic, the Shire of Kellerberrin recognises that these challenges may result in financial hardship for our ratepayers.

This Policy is intended to ensure that Council offer fair, equitable, consistent and dignified support to ratepayers suffering hardship, while treating all members of the community with respect and understanding at this difficult time.

2. SCOPE

This policy applies to:

- a) Outstanding rates and service charges as at the date of adoption of this policy; and
- b) Rates and service charges levied for the 2020/21 financial year.

It is a reasonable community expectation, as Council deal with the effects of the pandemic that those with the capacity to pay rates will continue to do so. For this reason the Policy is not intended to provide rate relief to ratepayers who are not able to evidence financial hardship and the statutory provisions of the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996* will apply.

3. DEFINITIONS

Nil

4. STRATEGIC CONTEXT

This policy links to key goal areas:

- a) Relationships that bring us tangible benefits (to the Shire and our community)
- b) Our lifestyle and strong sense of community
- c) We are prepared for opportunities and we are innovative to ensure our relevancy and destiny

5. POLICY STATEMENT

Payment Difficulties, Hardship And Vulnerability

Payment difficulties, or short term financial hardship, occur where a change in a person's circumstances result in an inability to pay a rates or service charge debt.

Financial hardship occurs where a person is unable to pay rates and service charges without affecting their ability to meet their basic living needs, or the basic living needs of their dependants. The Shire of Kellerberrin recognises the likelihood that COVID19 will increase the occurrence of payment difficulties, financial hardship and vulnerability in our community. This policy is intended to apply to all ratepayers experiencing financial hardship as a result of COVID-19 regardless of their status, be they a property owner, tenant, business owner etc.

Anticipated Financial Hardship Due To COVID19

Council recognise that many ratepayers are already experiencing financial hardship due to COVID-19. Council respect and anticipate the probability that additional financial difficulties will arise when their rates are received.

Council will write to ratepayers at the time their account falls into arrears, to advise them of the terms of this policy and encourage eligible ratepayers to apply for hardship consideration. Where possible and appropriate, Council will also provide contact information for a recognised financial counsellor and/or other relevant support services.

Financial Hardship Criteria

While evidence of hardship will be required, Council recognise that not all circumstances are alike. Council will take a flexible approach to a range of individual circumstances including, but not limited to, the following situations:

- Recent unemployment or under-employment
- Sickness or recovery from sickness as a result of COVID-19
- Low income or loss of income
- Unanticipated circumstances such as caring for and supporting extended family

Ratepayers are encouraged to provide any information about their individual circumstances that may be relevant for assessment. This may include demonstrating a capacity to make some payment and where possible, entering into a payment proposal. Council will consider all circumstances, applying the principles of fairness, integrity and confidentiality whilst complying our statutory responsibilities.

Payment Arrangements

Payment arrangements facilitated in accordance with Section 6.49 of the Act are of an agreed frequency and amount. These arrangements will consider the following:

- That a ratepayer has made genuine effort to meet rate and service charge obligations in the past;
- The payment arrangement will establish a known end date that is realistic and achievable;
- The ratepayer will be responsible for informing the Shire of Kellerberrin of any change in circumstance that jeopardises the agreed payment schedule.

In the case of severe financial hardship, Council reserve the right to consider waiving additional charges or interest (excluding the late payment interest applicable to the Emergency Services Levy).

Interest Charges

A ratepayer that meets the Financial Hardship Criteria and enters into a payment arrangement may request a suspension or waiver of interest charges. Applications will be assessed on a case by case basis.

Deferment of Rates

Deferment of rates may apply for ratepayers who have a Pensioner Card, State Concession Card or Seniors Card and Commonwealth Seniors Health Care Card registered on their property. The deferred rates balance:

- remains as a debt on the property until paid;
- becomes payable in full upon the passing of the pensioner or if the property is sold or if the pensioner ceases to reside in the property;
- may be paid at any time, BUT the concession will not apply when the rates debt is subsequently paid (deferral forfeits the right to any concession entitlement); and
- does not incur penalty interest charges.

Debt recovery

Council will suspend our debt recovery processes whilst negotiating a suitable payment arrangement with a debtor. Where a debtor is unable to make payments in accordance with the agreed payment plan and the debtor advises us and makes an alternative plan before defaulting on the 3rd due payment, then Council will continue to suspend debt recovery processes.

Where a ratepayer has not reasonably adhered to the agreed payment plan, then for any Rates and Service Charge debts that remain outstanding on 1 July 2021, we will offer the ratepayer one further opportunity of adhering to a payment plan that will clear the total debt by the end of the 2021/2022 financial year.

Rates and service charge debts that remain outstanding at the end of the 2021/22 financial year, will then be subject to the rates debt recovery procedures prescribed in the Local Government Act 1995.

Review

Council will establish a mechanism for review of decisions made under this policy, and advise the applicant of their right to seek review and the procedure to be followed.

Communication and Confidentiality

Council will maintain confidential communications at all times and we undertake to communicate with a nominated support person or other third party at your request.

Council will advise ratepayers of this policy and its application, when communicating in any format (i.e. verbal or written) with a ratepayer that has an outstanding rates or service charge debt.

Council recognise that applicants for hardship consideration are experiencing additional stressors, and may have complex needs. Council will provide additional time to respond to communication and will communicate in alternative formats where appropriate. Council will ensure all communication with applicants is clear and respectful.

5. POLICY STATEMENT

Both the Council and individual employees have obligations under the duty of care responsibilities in Occupational Safety and Health Legislation and at common law.

As an employer the Council is obliged to provide a safe workplace so that employees are not subject to unnecessary hazards. Part of this duty to take reasonable care relates to taking reasonable steps to ensure employees are in a fit state to work safely and to minimise risks to both themselves and their work mates.

Employees and other persons in the workplace have a corresponding duty under legislation to take reasonable care so as not to expose themselves or their fellow employees to unnecessary risks.

Employees have an obligation to advise the employer if they:

- Are unfit to perform work as a result of alcohol or drugs
- Are taking any medication that might affect their work performance
- Believe another employee or person in the workplace is unfit to perform work as a result of alcohol or drugs.

The Alcohol and Other Drugs Policy applies to all the Shire of Kellerberrin employees or other persons performing work upon the premises or property of the Shire of Kellerberrin.

Misuse of Alcohol and Other Drugs

Everybody performing duties at the Shire of Kellerberrin is expected to act in a responsible manner and present themselves for work in a fit state. Accordingly, a person adversely affected by alcohol or drugs is not permitted on the premises.

Any person whose alcohol or other drugs test results exceed the limits set out in this Policy will be deemed unfit for work.

This Policy does not apply to prescription drugs which are used for their intended purposes as currently

prescribed for the person using them and where use of such drugs does not adversely affect the person's ability to perform work in a safe and productive manner. All personnel who use prescribed drugs must report this to their manager and must also make the manager aware of any possible side effects.

This Policy does not apply to the moderate and responsible consumption of alcohol in accordance with the relevant Council procedure at Council business or social functions or in connection with business travel and entertainment.

Compulsory Drug and Alcohol Testing

Employees and other persons in the workplace are required to undertake alcohol and drug testing when, where and as required. This will include:

- Random testing
- Extraordinary testing
- Incident testing
- Fitness for Work testing
- Pre-Employment testing

Valid samples for the purposes of drug screening will comply with the requirements of Australian Standard 4308 for the collection, detection and quantitation of drugs of abuse in urine.

A screening test to identify the presence of alcohol will be conducted by breath analysing equipment that meets the requirements of Australian Standard 3547 (Breath alcohol testing devices for personal use) and the procedure used will be as recommended by the manufacturer of the device.

All drug testing shall be conducted at a Council approved testing facility. Authorised and trained persons will conduct all alcohol testing at the workplace.

Where an employee or other person in the workplace returns a positive screening test result a confirmatory test will be conducted.

A person who returns a positive screening test will not be permitted to remain in or return to the workplace pending the receipt by the employer of the confirmatory test result. Where a person is so required to leave the Council's premises or property the Council will ensure that it is in a safe and responsible manner.

A positive confirmatory test result will be dealt with in accordance with the "Action in Relation to Test Results" provisions as contained in this Policy.

A person who returns a negative confirmatory test result will be permitted to return to the workplace.

Random Testing

All employees and other persons in the workplace may be required to provide a sample for testing as a result of a random selection process. The Council reserves the right to amend and adjust the random selection process from time to time as appropriate.

All employees will be tested at least once in every twelve months.

Extraordinary Testing

An employee once found to have obtained a positive result in either drug or alcohol testing shall be required to undergo further urine testing at the rate of three extraordinary tests over six months not including normal selection for random testing.

The Council's Chief Executive Officer shall determine when extraordinary testing is to take place.

Incident Testing

Employees involved in significant incidents may be tested. Significant incidents may include, but are not limited to:

- Vehicle accidents
- Injuries treated by a medical practitioner
- Property/equipment damage
- Reportable near misses

Persons involved in such incidents will be tested for alcohol and/or drugs as per the procedures under this policy. They will not be permitted to commence work until a negative test result is returned and they are considered to be fit for work.

A person who is required to provide a post-incident sample will be on full pay until the testing process is completed at which time they will either return to work or be dealt with in accordance with the "Action in Relation to Test Results" provisions as contained in this Policy.

Fitness for Work Testing

Any employee who has reason to believe that another employee, a contractor's employee, or a visitor is under the influence of drugs or alcohol must report their suspicions to their supervisor/manager. If the supervisor/manager agrees that there is cause for suspicion they must arrange for the person to be removed from the workplace and undertake to provide a urine or breathalyser test. The employee reporting the suspicion will also be tested.

The person will not be permitted to commence work until a negative test result is returned and they are considered to be fit for work. The persons who are required to provide the sample will be on full pay until the testing process is completed at which time they will either return to work or be dealt with in accordance with the "Action in Relation to Test Results" provisions as contained in this Policy.

Employees have the opportunity to voluntarily self-test "without prejudice" at least 10 minutes prior to the commencement of work if they are in doubt of their fitness for work. An employee who removes themselves from the workplace prior to any incident or disciplinary action will do so either on annual or unpaid leave. Repeated events will be treated as a performance matter.

Pre-Employment Testing

All prospective employees shall be required to provide a urine sample that will be analysed for traces of prohibited or restricted drugs in accordance with Australian Standard 4308 as a pre-requisite for employment with the Council.

The prospective employee will be requested to declare to the person administering the test whether they are taking any medication, including prescription and/or non-prescription over the counter drugs.

Refusal to Undertake a Test

Refusal by an employee to submit to or cooperate fully with the administration of a drug and alcohol test will be deemed to be the same as a First Positive result and the employee will be sent home on either earned annual leave or unpaid leave at the employee's choice.

The employee will be given a verbal warning. This will be performed in accordance with the relevant Council procedure which requires a record to be kept including the full details of the misconduct, time and date of warning, and names of witnesses.

The employee will present themselves at an authorised testing centre within 24 hours of the first refusal and undergo a test. If the employee continues to refuse to take a test, it will be treated as a Second Positive result and the employee will be sent home on either earned annual leave or unpaid leave at the employee's choice. The employee will be given a final written warning assuming there are no mitigating circumstances.

The employee will present themselves for another test within 24 hours of the second refusal and undergo a test. If the employee continues to refuse to take a test, it will be treated as a Third Positive result. Formal disciplinary procedures will be invoked to ascertain if any mitigating circumstances exist and to allow the employee to state their case. Unless there are convincing arguments to the contrary, the individual may be dismissed without notice.

Provision of an Invalid Sample or Inability to Provide a Sample

An employee or other person in the workplace who provides an invalid sample for testing will be required to provide a valid sample for testing within 24 hours at an authorised testing centre and to comply with the instructions of the authorised testing centre to ensure the provision of a valid sample. In the absence of a medical explanation acceptable to the employer for the provision of an invalid sample, the provision of a second consecutive invalid sample will be treated as a Positive result for the purposes of this Policy.

Where an employee or other person in the workplace asserts that they are unable to provide a sample for testing, in the absence of an explanation acceptable to the employer and when given a reasonable timeframe, the person will be deemed to have returned a positive confirmatory test result for the purposes of this Policy.

Requirement to Declare Use of Drugs Prior To Testing

Where a positive test result is returned indicating the presence of a class of drugs consistent with the declared prescription and/or over the counter drugs no further action will be taken pending receipt of the confirmatory test results and provided the person is fit for work. If the confirmatory test result is consistent with the proper and/or prescribed use of the declared prescription and/or non-prescription over the counter drugs it will not be considered a Positive result for the purposes of this Policy and no further action will be taken, provided that the person is fit for work.

Where the confirmatory test result is not consistent with the proper and/or prescribed use of the declared prescription and/or non-prescription over the counter drugs or where the use of prescription and/or non-prescription over the counter drugs has not been declared it will be considered a Positive result for the purposes of this Policy.

1. PURPOSE

The purpose of this policy is to ensure consistency in the appointment of Freeman of the Shire and uphold the honour of the position.

2. SCOPE

This policy is applied to the Shire of Kellerberrin and its elected members and employees.

3. DEFINITIONS

4. STRATEGIC CONTEXT

This policy links to core drivers:

- a) Relationships that bring us tangible benefits(to the Shire and our community)
- b) Our lifestyle and strong sense of community
- c) We are prepared for opportunities and we are innovative to ensure our relevancy and destiny

5. POLICY STATEMENT

Guidelines for Appointment

The award of Freeman is intended to recognise outstanding community service over a significant period of time and in a diversity of activities within the Shire of Kellerberrin. The award would not usually be presented for excellence of service in only one activity.

Residency Eligibility

Nominees should have lived within the Shire of Kellerberrin for a significant number of years (significant would usually mean at least 20 years) and had a long and close association and identification with the Shire.

Service

The award is intended to recognise service within the local community that goes beyond the particular local government concerns (e.g. service to other organisations, voluntary and community groups) in a largely voluntary capacity. The nominees must have made an outstanding contribution to the Shire of Kellerberrin such that the nominee's contribution can be seen to stand above the contributions made by most other people.

The award of Freeman is to be seen as independent of any other award.

This award is to be recognised as the highest honour that the local community, through its elected Shire Council, can confer on one of its citizens. It therefore follows that the award will be conferred sparingly.

For the award to have the desired standing within the community, it should only be conferred where there is a great assurance of public approval.

It is suggested that the Minister for Local Government be consulted with regard to each candidate, prior to Council's formal resolution conferring the award.

Nomination Procedure

Nominations must be made in the strictest confidence without the nominee's knowledge.

Any resident or elector of the Shire of Kellerberrin may make a nomination but an elected member must sponsor it.

Nominations must be made in writing to the Chief Executive Officer. On receipt of a nomination, the nomination shall be circulated to all elected members for a confidential, information discussion. If an elected member expresses an objection to the nomination, that elected member must give reasons for the objection. If no elected member objects, it shall be assumed that all agree to the nomination.

If the elected members agree that the nominee should be made an Honorary Freeman of the Shire of Kellerberrin, the nomination shall be put before Council and a formal vote taken.

It is not seen as desirable that the award of Freeman be presented to a sitting member of Council. The title of Freeman confers upon the holder an invitation to attend any function conducted by the Shire of Kellerberrin.

The award shall be made at a ceremony, decided by the President.

Version: Current

Responsible Officer: Chief Executive Officer

1. PURPOSE

This policy outlines the entitlement to, process and obligations for taking the following entitlements:

- a) paid personal/carer's leave;
- b) unpaid personal leave;
- c) unpaid carer's leave;
- d) compassionate leave;
- e) family and domestic violence leave,

and is read in conjunction with the Local Government Industry Award 2020 and the National Employment Standards (**NES**).

2. SCOPE

This policy applies to all employees of the Shire of Kellerberrin (**the Shire**), except the Chief Executive Officer.

3. DEFINITIONS

In this policy, a member of the employee's **immediate family** means a spouse, de facto partner, child, parent, grandparent, grandchild or sibling of an employee; or a child, parent, grandchild or sibling of the employee's spouse or de facto partner.

4. STRATEGIC CONTEXT

This policy links to key goal areas:

- a) Relationships that bring us tangible benefits (to the Shire and our community)
- b) Our lifestyle and strong sense of community
- c) We are prepared for opportunities and we are innovative to ensure our relevancy and destiny

5. POLICY STATEMENT

The Shire of Kellerberrin is committed to:

- a) fostering a balance between work, and family and lifestyle commitments;
- b) ensuring that employees understand their workplace rights and their obligations; and
- c) ensuring that employees understand and properly access appropriate leave entitlements.

Employees should only access leave when they are entitled to do so, otherwise there is an expectation that employees:

- devote work time to the performance of their duties and deal with personal matters outside of work hours;
- conduct and schedule non-work related activities outside of their work time (i.e. before or after work, on weekends/non-work days, on rostered days off).

Leave Types

Paid Personal/Carer's Leave

For each year of service with the Shire full-time employees are entitled to 10 days of paid personal/carer's leave. Part-time employees are entitled to paid personal/carer's leave on a pro-rata basis. Casual employees are not entitled to paid personal/carer's leave.

Full-time and part-time employees' entitlement to paid personal/carer's leave accrues progressively during a year of service according to the employee's ordinary hours of work. Un-used portions of personal leave accumulate from year to year. Accrued personal leave is not paid out on termination of employment.

If an employee requires personal leave during a period of annual leave, they may apply to have the leave reversed in line with the notice and evidence requirements in accordance with section 7 and the Personal/Carer's, Compassionate and Family & Domestic Violence Leave Management Procedure (the Procedure).

When Can Paid Personal/Carer's Leave Be Taken

An employee may take paid personal / carer's leave if the leave is taken:

- a) because the employee is not fit for work because of a personal illness or injury; or
- b) to provide care or support to a member of the employee's immediate family, or a member of the employee's household, who requires care or support because of:
 - (i) a personal illness or injury affecting the member; or
 - (ii) an unexpected emergency affecting the member.

Employees are required to notify the Shire of paid personal/carer's leave absences and provide evidence to support the reasons for their absence in accordance with section 7 and the Procedure.

Unpaid Personal Leave

Full-time and part-time employees who run out of paid personal/carer's leave and are not fit for work because they are sick or injured may take unpaid personal leave.

Where an employee has exhausted their personal leave entitlement they may apply to use their annual leave, however there is no guarantee that such an application will be approved. Such a request needs to be made by the employee and signed off by his or her line manager and approved by the CEO.

The requirements set out in section 7 and the Procedure still apply to the taking of unpaid personal leave, and as such an employee still needs to provide notice, complete a leave application form and provide evidence where required.

Unpaid Carer's Leave

An employee, including a casual employee, is entitled to two days of unpaid carer's leave for each occasion when a member of the employee's immediate family or member of the employee's household requires care or support because of a personal illness, injury or an unexpected emergency.

Unpaid carer's leave can be taken in a single continuous period of up to two days or separate period as agreed between the employee and his or her line manager.

In the case of full-time and part-time employees, they must use any accrued personal / carer's leave before requesting unpaid carer's leave.

Employees are required to notify the Shire of all absences on unpaid carer's leave and the Shire reserves the right to request evidence to substantiate the reason for taking such leave, in accordance with section 7 and the Procedure.

Compassionate Leave

An employee is entitled to two days of compassionate leave:

- a) to spend time with a member of their immediate family or household who has contracted, developed or sustained a life threatening illness or injury; or
- b) when a member of their immediate family or household dies.

An employee may take compassionate leave for each occasion as a single continuous two day period or two separate periods of one day each or separate periods as agreed between the employee and his or her line manager.

An employee, other than a casual, is entitled to be paid at their base rate of pay for the ordinary hours they would have worked during the period. Casual employees are not entitled to be paid for compassionate leave.

Employees are required to notify the Shire of all absences on compassionate leave and the Shire reserves the right to request evidence to substantiate the reason for taking such leave, in accordance with section 7 and the Procedure.

Family And Domestic Violence Leave

All employees are entitled to five days of unpaid family and domestic violence leave per 12 month period.

An employee can take family and domestic violence leave when they:

- a) are experiencing family and domestic violence;
- b) need to do something to deal with the impact of the family and domestic violence and it is impracticable to do so outside of the employee's ordinary hours of work.

The entitlement to five unpaid days per 12 month period does not accumulate from year to year and may be taken in a single continuous period of five days or separate period or one or more days each or as agreed between the employee and his or her line manager.

Family and domestic violence is violent, threatening or other abusive behaviour by a close relative of an employee that:

- seeks to coerce or control the employee; and
- causes the employee harm or to be fearful.

A **close relative** of the employee is a person who:

- is a member of the employee's immediate family; or
- is related to the employee according to Aboriginal or Torres Strait Islander kinship rules.

Employees are required to notify the Shire of all absences on family and domestic violence leave and the Shire reserves the right to request evidence to substantiate the reason for taking such leave, in accordance with section 10 and the procedure section of this document.

The Shire will take reasonably practical steps to keep any information about an employee's situation confidential when they receive it as part of an application for family and domestic violence leave. This includes information about the employee taking family and domestic leave, including leave records as well as any evidence provided by the employee. The Shire will work with the employee making the request to discuss and agree on how the information provided will be handled and the level of confidentiality required.

The Shire is not prevented from disclosing such information where it is required to by law, or it is necessary to protect the life, health or safety of the employee or another person.

Notice and evidence requirements

For all periods of leave covered in this policy an employee must give the Shire notice of the taking of such leave and advise of the period, or expected period, of the leave as soon as reasonably practicable.

The Shire is entitled to request evidence that would substantiate the reason for leave.

If an employee is required to substantiate the reason for leave and fails to do so or does not produce evidence that would satisfy a reasonable person then the employee is not entitled to the leave and their absence may be treated as unauthorised.

The requirements around notice and providing evidence are set out in the Procedure.

Employee assistance program

The Shire has an Employee Assistance Program (EAP) which employees can access for confidential counselling services provided by independent and experienced professionals. If an employee's personal leave is being monitored and/or managed Managers and Supervisors should provide details of the EAP service.

Flyers with information about the EAP service and contact details are available from Depot/Crib Room notice board and Administration Office notice board.

1. PURPOSE

The purpose of this policy is to demonstrate this commitment to workplace safety, a copy of this policy shall be included in all tender documentation issued to vendors of plant and equipment as well as to the providers of equipment hired by the Shire of Kellerberrin.

2. SCOPE

This policy is applied to the Shire of Kellerberrin and its elected members and employees.

3. DEFINITIONS

4. STRATEGIC CONTEXT

This policy links to core drivers:

- a) Relationships that bring us tangible benefits(to the Shire and our community)
- b) Our lifestyle and strong sense of community
- c) We are prepared for opportunities and we are innovative to ensure our relevancy and destiny

5. POLICY STATEMENT

Implementation of this policy complies with the obligation to ensure safe systems of work.

To reduce the risk of injury and ill-health to employees all hazards must be identified, assessed and controlled.

Hazard Identification ensures all possible risks to employees from the purchase or hire of equipment are recognised and taken into account **before** purchase or hire is finalised.

Hazard Assessment enables the likelihood of injury and the severity of injury to be assessed.

Hazard Control recommends possible courses of action to minimise all risks based on the recognised hierarchy of hazard control with elimination being the most desirable and substitution the next option. Engineering controls may also be relevant.

The above three step hazard management system is relevant to all Council operations.

The assessment should be conducted by the section Supervisor, the usual operator and the safety and health representative **before** purchase or hire of any plant and equipment. The workshop supervisor may also attend these assessments as his knowledge and expertise would be relevant to the maintenance schedule and any suggested alterations and modifications.

The Occupational Health and Safety Act 1995 and Occupational Safety and Health Amendment legislation 1995 make specific reference to the obligations of manufacturers and suppliers of equipment:

When inspecting plant and equipment, either for purchase or hire, there are a number of areas that need to be taken into consideration to minimise risk to employees.

Ergonomics

Seating - needs to be comfortable and able to support the operator without sagging. Appropriate lumbar support should be incorporated in seat design plus adjustments available to accommodate all sizes of operators.

Operating controls - should be located within easy reach to minimise operator stretching, bending and twisting movements. Controls should be light in movement to minimise strain and muscular effort. Steering wheel positioning should be adjustable to suit all sizes of operators and there must be sufficient distance from the operator's thighs and the steering wheel.

Access and egress - hand holds and steps should be located to enable ease of entry and exit from the cab.

Noise

Noise levels both inside and outside the cab should be assessed. Exposure to excessive noise levels can result in permanent hearing loss and also contributes to fatigue. Employers are obliged to reduce noise levels as far as practicable at the workplace. Noise level measurements of the item of plant or equipment should be provided by the supplier before purchase or hire to ascertain the risk to employees operating the equipment as well as employees and /or members of the public who may be in the vicinity at the times of operation.

Dust and moisture control

Cabs must be sealing correctly to minimise penetration of dust and moisture. Adequate ventilation is essential for operator comfort.

Thermal comfort

Adequate ventilation is essential and wherever possible air-conditioning should be installed and tinted glass for those items with large areas of glass. Heaters should be fitted to enable comfort in colder conditions and demisting facilities to enable clear visibility.

Vibration

Cabs should be mounted to minimise vibrations transmitted from road surfaces. Correct suspension seating also absorbs vibration and improves operator comfort.

Lighting

Work lights should be positioned to light up the required work area of the equipment e.g. the road sweeper lights should be positioned so that the operator can clearly see the gutter line and channel brushes while operating.

Visibility

Visibility from the vehicle should be assessed to ensure a clear field of view in all directions with any possible blind spots identified.

Passenger comfort

Passenger comfort should be taken into consideration if more than two people are to travel in the vehicle. Most trucks only cater well for two people with a small centre seat over the engine cowling for the third person. To avoid discomfort for the third person it is undesirable for this middle seat to be used for any great length of time.

Purchasing Thresholds And Practices

Defining the Purchasing Value

The Shire will apply reasonable and consistent methodologies to assess and determine Purchasing Values, which ensure:

- a) The appropriate purchasing threshold and practice is applied in all purchasing activities; and

- b) Wherever possible, purchasing activity for the same category of supply is aggregated into single contract arrangements to achieve best value and efficiency in future purchasing activities where the requirements are able to be provided by a single supplier.

A **category of supply** can be defined as groupings of similar goods or services with common: supply and demand drivers; market characteristics; or suppliers.

Strategic Purchasing Value Assessments

The Shire will periodically review recent past purchasing activity across its operations to identify categories of supply for which the Shire will have continuing need and which can be aggregated into single contract arrangements in order to achieve best value for money and efficiency in future purchasing activity.

The assessment of aggregated expenditure for the same category of supply capable of being supplied by a single supplier will determine the Purchasing Value threshold applicable to future purchasing activity.

Individual Purchasing Value Assessments

In any case, where there is no relevant current contract, each purchasing activity is to assess the Purchasing Value based upon the following considerations:

- a) Exclusive of Goods and Services Tax (GST); and
- b) The estimated total expenditure for the proposed supply including the value of all contract extension options and where applicable, the total cost of ownership considerations.
- c) The appropriate length of a contract is to be determined based on market volatility, ongoing nature of supply, historical purchasing evidence and estimated future purchasing requirements.
- d) Requirements must not be split to avoid purchasing or tendering thresholds [F&G Reg. 12].

The calculated estimated Purchasing Value will determine the applicable threshold and purchasing practice to be undertaken.

Table Of Purchasing Thresholds And Practices

Supplier Order of Priority

The Shire will consider and apply, where applicable, the following Supplier Order of Priority:

Priority 1: Existing Prequalified Supplier Panel or other Contract

Current contracts, including a Panel of Prequalified Suppliers or contracted supplier, must be used where the Shire's supply requirements can be met through the existing contract.

If the Shire does not have a current contract relevant to the required supply, then a relevant WALGA PSA is to be used.

Priority 2: Local Suppliers

Where the Purchasing Value does not exceed the tender threshold and a relevant local supplier is capable of providing the required supply, the Shire will ensure that wherever possible quotations are obtained from local suppliers permanently located within the District as a first priority, and those permanently located within surrounding Districts as the second priority.

If no relevant local supplier is available, then a relevant WALGA PSA may be used.

Priority 3: Tender Exempt - WALGA Preferred Supplier Arrangement (PSA)

Use a relevant WALGA PSA regardless of whether or not the Purchasing Value will exceed the tender threshold.

However, if a relevant PSA exists but an alternative supplier is considered to provide best value, then the CEO, or an officer authorised by the CEO, must approve the alternative supplier. Reasons for not using a PSA may include:

- i. Local supplier availability (that are not within the PSA); or,
- ii. Social procurement – preference to use Aboriginal business or Disability Enterprise.

If no relevant WALGA PSA is available, then a relevant State Government CUA may be used.

- Priority 4: Tender Exempt - WA State Government Common Use Arrangement (CUA)**
 Use a relevant CUA regardless of whether or not the Purchasing Value will exceed the tender threshold.
 However, if a relevant CUA exists, but an alternative supplier is considered to provide best value for money, then the proposed alternative supplier must be approved by the CEO, or an officer authorised by the CEO.
 If no relevant CUA is available, then a Tender Exempt [*F&G Reg.11(2)*] arrangement may be used.
- Priority 5: Other Tender Exempt arrangement [*F&G Reg. 11(2)*]**
 Regardless of whether or not the Purchasing Value will exceed the tender threshold, the Shire will investigate and seek quotations from tender exempt suppliers, and will specifically ensure that wherever possible quotations are obtained from a WA Disability Enterprise and / or an Aboriginal Owned Business that is capable of providing the required supply.
- Priority 6: Other Suppliers**
 Where there is no relevant existing contract or tender exempt arrangement available, purchasing activity from any other supplier is to be in accordance with relevant Purchasing Value Threshold and Purchasing Practice specified in the table below.

Table of Purchasing Thresholds and Practices

This table prescribes Purchasing Value Thresholds and the applicable purchasing practices which apply to the Shire's purchasing activities:

Emergency Purchases

Emergency purchases are defined as the supply of goods or services associated with:

- A local emergency and the expenditure is required (within existing budget allocations) to respond to an imminent risk to public safety, or to protect or make safe property or infrastructure assets; OR
- A local emergency and the expenditure is required (with no relevant available budget allocation) to respond to an imminent risk to public safety, or to protect or make safe property or infrastructure assets in accordance with s.6.8 of the Local Government Act 1995 and Functions and General Regulation 11(2)(a); OR
- A State of Emergency declared under the Emergency Management Act 2005 and therefore, Functions and General Regulations 11(2)(aa), (ja) and (3) apply to vary the application of this policy.

Time constraints, administrative omissions and errors do not qualify for definition as an emergency purchase. Instead, every effort must be made to research and anticipate purchasing requirements in advance and to allow sufficient time for planning and scoping proposed purchases and to then obtain quotes or tenders, as applicable.

Inviting tenders though not required to do so

The Shire may determine to invite Public Tenders, despite the estimated Purchase Value being less than the \$250,000 prescribed tender threshold, but only where an assessment determines that the purchasing requirement cannot be met through a tender exempt arrangement and the use of a public tender process will enhance; value for money, efficiency, risk mitigation and sustainable procurement benefits.

In such cases, the tender process must comply with the legislative requirements and the Shire's tendering procedures [F&G Reg.13].

Expressions of Interest

Expressions of Interest (EOI) will be considered as a prerequisite to a tender process [F&G Reg.21] where the required supply evidences one or more of the following criteria:

- a) Unable to sufficiently scope or specify the requirement;
- b) There is significant variability for how the requirement may be met;
- c) There is potential for suppliers to offer unique solutions and / or multiple options for how the purchasing requirement may be obtained, specified, created or delivered;
- d) Subject to a creative element; or
- e) Provides a procurement methodology that allows for the assessment of a significant number of potential tenderers leading to a shortlisting process based on non-price assessment.

All EOI processes will be based upon qualitative and other non-price information only.

Unique Nature of Supply (Sole Supplier)

An arrangement with a supplier based on the unique nature of the goods or services required or for any other reason, where it is unlikely that there is more than one (1) potential supplier may only be approved where the:

- a) purchasing value is estimated to be over \$5,000; and
- b) purchasing requirement has been documented in a detailed specification; and
- c) specification has been extensively market tested and only one potential supplier has been identified as being capable of meeting the specified purchase requirement; and
- d) market testing process and outcomes of supplier assessments have been evidenced in records, inclusive of a rationale for why the supply is determined as unique and why quotations / tenders cannot be sourced through more than one potential supplier.

An arrangement of this nature will only be approved for a period not exceeding one (1) year. For any continuing purchasing requirement, the approval must be re-assessed before expiry, to evidence that only one (1) potential supplier still genuinely exists.

Anti-Avoidance

The Shire will not conduct multiple purchasing activities with the intent (inadvertent or otherwise) of "splitting" the purchase value or the contract value, so that the effect is to avoid a particular purchasing threshold or the need to call a Public Tender. This includes the creation of two (2) or more contracts or creating multiple purchase order transactions of a similar nature.

Contract Renewals, Extensions and Variations

Where a contract has been entered into as the result of a publicly invited tender process, then *Functions and General Regulation 21A* applies.

For any other contract, the contract must not be varied unless

- a) The variation is necessary in order for the goods or services to be supplied and does not change the scope of the contract; or
- b) The variation is a renewal or extension of the term of the contract where the extension or renewal options were included in the original contract; and
- c) Authorised by the Chief Executive Officer by delegation to the value of no more than 10% of the contract value or the extension or renewal options were included in the original contract for all tendered contracts;
- d) Authorised by the Chief Executive Officer by delegation for all operational contracts

Upon expiry of the original contract, and after any options for renewal or extension included in the original contract have been exercised, the Shire is required to review the purchasing requirements and commence a new competitive purchasing process in accordance with this Policy.

Sustainable Procurement

The Shire is committed to implementing sustainable procurement by providing a preference to suppliers that demonstrate sustainable business practices (social advancement, environmental protection and local economic benefits).

The Shire will apply Sustainable Procurement criteria as part of the value for money assessment to ensure that wherever possible our suppliers demonstrate outcomes which contribute to improved environmental, social and local economic outcomes.

Sustainable Procurement can be demonstrated as being internally focussed (i.e. operational environmental efficiencies or employment opportunities and benefits relating to special needs), or externally focussed (i.e. initiatives such as corporate philanthropy).

Requests for Quotation and Tenders will include a request for Suppliers to provide information regarding their sustainable practices and/or demonstrate that their product or service offers enhanced sustainable benefits.

Local Economic Benefit

The Shire promotes economic development through the encouragement of competitive participation in the delivery of goods and services by local suppliers permanently located within its District first, and secondly, those permanently located within its broader region. As much as practicable, the Shire will:

- a) consider buying practices, procedures and specifications that encourage the inclusion of local businesses and the employment of local residents;
- b) consider indirect benefits that have flow on benefits for local suppliers (i.e. servicing and support);
- c) ensure that procurement plans, and analysis is undertaken prior to develop Requests to understand local business capability and local content availability where components of goods or services may be sourced from within the District for inclusion in selection criteria;
- d) explore the capability of local businesses to meet requirements and ensure that Requests for Quotation and Tenders are designed to accommodate the capabilities of local businesses;
- e) avoid bias in the design and specifications for Requests for Quotation and Tenders – all Requests must be structured to encourage local businesses to bid;
- f) consider the adoption of Key Performance Indicators (KPIs) within contractual documentation that require successful Contractors to increase the number of employees from the District first; and
- g) provide adequate and consistent information to local suppliers.

To this extent, a weighted qualitative criterion will be included in the selection criteria for Requests for Quotation and Tenders where suppliers are located within the boundaries of the Shire, or substantially demonstrate a benefit or contribution to the local economy.

The Shire has adopted a Local Purchasing Policy, which will be applied when undertaking all purchasing activities.

Socially Sustainable Procurement

The Shire will support the purchasing of requirements from socially sustainable suppliers such as Australian Disability Enterprises and Aboriginal businesses wherever a value for money assessment demonstrates benefit towards achieving the Shire's strategic and operational objectives.

A qualitative weighting will be used in the evaluation of Requests for Quotes and Tenders to provide advantages to socially sustainable suppliers in instances where the below tender exemptions are not exercised.

Aboriginal Businesses

Functions and General Regulation 11(2)(h) provides a tender exemption if the goods or services are supplied by a person on the Aboriginal Business Directory WA published by the Chamber of Commerce and Industry of Western Australia, or Australian Indigenous Minority Supplier Office Limited (trading as Supply Nation), where the consideration under contract is \$250,000 or less, or worth \$250,000 or less.

The Shire will first consider undertaking a quotation process with other suppliers (which may include other registered Aboriginal Businesses as noted in *F&G Reg.11(2)(h)*) to determine overall value for money for the Shire.

Where the Shire makes a determination to contract directly with an Aboriginal Business for any amount up to and including \$250,000 (ex GST), it must be satisfied through alternative means that the offer truly represents value for money.

If the contract value exceeds \$50,000 (ex GST), a formal Request for Quotation will be issued to the relevant Aboriginal business. The rationale for making the purchasing decision must be recorded in accordance with the Shire's Record Keeping Plan.

Australian Disability Enterprises

Functions and General Regulation 11(2)(i) provides a tender exemption if the goods or services are supplied by an Australian Disability Enterprise.

The Shire will first consider undertaking a quotation process with other suppliers (which may include other Australian Disability Enterprises) to determine overall value for money for the Shire.

Where the Shire makes a determination to contract directly with an Australian Disability Enterprise for any amount, including an amount over the Tender threshold of \$250,000 (ex GST), it must be satisfied through alternative means that the offer truly represents value for money.

If the contract value exceeds \$50,000 (ex GST), a formal Request for Quotation will be issued to the relevant Aboriginal business. The rationale for making the purchasing decision must be recorded in accordance with the Shire's Record Keeping Plan.

Environmentally Sustainable Procurement

The Shire will support the purchasing of recycled and environmentally sustainable products whenever a value for money assessment demonstrates benefit toward achieving the Shire's strategic and operational objectives.

Qualitative weighted selection criteria will be used in the evaluation of Requests for Quote and Tenders to provide advantages to suppliers which:

- a) demonstrate policies and practices that have been implemented by the business as part of its operations;
- b) generate less waste material by reviewing how supplies, materials and equipment are manufactured, purchased, packaged, delivered, used, and disposed; and
- c) encourage waste prevention, recycling, market development and use of recycled/recyclable materials.

Panels Of Pre-Qualified Suppliers

Objectives

The Shire will consider creating a Panel of Pre-qualified Suppliers ("Panel") when a range of similar goods and services are required to be purchased on a continuing and regular basis.

Part of the consideration of establishing a panel includes:

- a) there are numerous potential suppliers in the local and regional procurement related market sector(s) that satisfy the test of 'value for money';
- b) the Panel will streamline and will improve procurement processes; and
- c) the Shire has the capability to establish a Panel, and manage the risks and achieve the benefits expected of the proposed Panel through a Contract Management Plan.

Establishing and Managing a Panel

If the Shire decides that a Panel is to be created, it will establish the panel in accordance with the Regulations.

Panels will be established for one supply requirement, or a number of similar supply requirements under defined categories. This will be undertaken through an invitation procurement process advertised via a state-wide notice.

Panels may be established for a maximum of three (3) years. The length of time of a Local Panel is decided with the approval of the CEO/ Executive Director.

Evaluation criteria will be determined and communicated in the application process by which applications will be assessed and accepted.

In each invitation to apply to become a pre-qualified supplier, the Shire will state the expected number of suppliers it intends to put on the panel.

If a Panel member leaves the Panel, the Shire will consider replacing that organisation with the next ranked supplier that meets/exceeds the requirements in the value for money assessment – subject to that supplier agreeing. The Shire will disclose this approach in the detailed information when establishing the Panel.

A Panel contract arrangement needs to be managed to ensure that the performance of the Panel Contract and the Panel members under the contract are monitored and managed. This will ensure that risks are managed and expected benefits are achieved. A Contract Management Plan should be established that outlines the requirements for the Panel Contract and how it will be managed.

Distributing Work Amongst Panel Members

To satisfy Regulation 24AD(5) of the Regulations, when establishing a Panel of pre-qualified suppliers, the detailed information associated with each invitation to apply to join the Panel will prescribe one of the following as to whether the Shire intends to:

- a) obtain quotations from each pre-qualified supplier on the Panel with respect to all discreet purchases; or
- b) purchase goods and services exclusively from any pre-qualified supplier appointed to that Panel, and under what circumstances; or
- c) develop a ranking system for selection to the Panel, with work awarded in accordance with the Regulations.

In considering the distribution of work among Panel members, the detailed information will also prescribe whether:

- a) each Panel member will have the opportunity to bid for each item of work under the Panel, with pre-determined evaluation criteria forming part of the invitation to quote to assess the suitability of the supplier for particular items of work. Contracts under the pre-qualified panel will be awarded on the basis of value for money in every instance; or
- b) work will be awarded on a ranked basis, which is to be stipulated in the detailed information set out under *Functions and General Regulation 24AD(5)(f)* when establishing the Panel.
 - The Shire will invite the highest ranked Panel member, who is to give written notice as to whether to accept the offer for the work to be undertaken.
 - Should the offer be declined, an invitation to the next ranked Panel member is to be made and so forth until a Panel member accepts a Contract.
 - Should the list of Panel members invited be exhausted with no Panel member accepting the offer to provide goods/services under the Panel, the Shire may then invite suppliers that are not pre-qualified under the Panel, in accordance with the Purchasing Thresholds stated in clause 1.4.2(2) of this Policy.
 - When a ranking system is established, the Panel will not operate for a period exceeding 12 months.

In every instance, a contract must not be formed with a pre-qualified supplier for an item of work beyond 12 months, which includes options to extend the contract.

Purchasing From The Panel

The invitation to apply to be considered to join a panel of pre-qualified suppliers must state whether quotations are either to be invited to every Panel member (within each category, if applicable) of the Panel for each purchasing requirement, whether a ranking system is to be established, or otherwise.

Communications With Panel Members

The Shire will ensure clear, consistent and regular communication with Panel Members.

Each quotation process, including the invitation to quote, communications with Panel members, quotations received evaluation of quotes and notification of award communications must all be captured on the Shire's electronic records system. A separate file is to be maintained for each quotation process made under each Panel that captures all communications between the Shire and Panel members.

Record Keeping

All Local Government purchasing activity, communications and transactions must be evidenced and retained as local government records in accordance with the *State Records Act 2000* and the Shire's Record Keeping Plan.

In addition, the Shire must consider and will include in each contract for the provision of works or services, the contractor's obligations for creating, maintaining and where necessary the transferral of records to the Shire relevant to the performance of the contract.

Purchasing Policy Non-Compliance

The Purchasing Policy is mandated under the *Local Government Act 1995* and Regulation 11A of the *Local Government (Functions and General) Regulations 1996* and therefore the policy forms part of the legislative framework in which the Local Government is required to conduct business.

Where legislative or policy compliance is not reasonably able to be achieved, records must evidence the rationale and decision making processes that substantiate the non-compliance.

Purchasing activities are subject to internal and external financial and performance audits, which examine compliance with legislative requirements and the Shire's policies and procedures.

If non-compliance with legislation, this Purchasing Policy or the Code of Conduct, is identified it must be reported to the Chief Executive officer or the Deputy Chief Executive officer

A failure to comply with legislation or policy requirements, including compliance with the Code of Conduct when undertaking purchasing activities, may be subject to investigation, with findings to be considered in context of the responsible person's training, experience, seniority and reasonable expectations for performance of their role.

Where a breach is substantiated it may be treated as:

- a) an opportunity for additional training to be provided;
- b) a disciplinary matter, which may or may not be subject to reporting requirements under the *Public Sector Management Act 1994*; or
- c) where the breach is also identified as potentially serious misconduct, the matter will be reported in accordance with the *Corruption, Crime and Misconduct Act 2003*.

As an employee completes their probationary period the Manager is responsible for completing a final Progress Review. An important part of the Progress Review is the "Employee Development Plan". The purpose of this is to identify areas of training, either to build on the employees strengths or to cover those

elements of the job that they may have limited experience. The training requirements need will be put in writing and will form the basis of their individual training plan for the period until their next review.

Basis of Preparation

The budget has been prepared in accordance with applicable Australian Accounting Standards (as they apply to local government and not-for-profit entities). Australian Accounting Interpretations, other authorities pronouncements of the Australian Accounting Standards board, the local Government Act 1995 and accompanying regulations. Material accounting policies which have been adopted in the preparation of this budget are presented below and have been consistently applied unless stated otherwise.

Except for cash flow and rate setting information, the budget has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement of fair value of selected non-current assets, financial assets and liabilities.

The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in the financial statements forming part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statement. A separate statement of those monies appears at Note 16 to this budget document.

2023/24 Actual Balances

Balances shown in the current budget as 2023/24 Actual are as forecast at the time of the budget Preparation and are subject to final adjustments.

Rounding Off Figures

All figures in this budget, other than a rate in the dollar, are rounded to the nearest dollar.

Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local Government obtains control over the assets comprising the contributions.

Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a Gross basis. The GST components of a cash flows arising from Investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

Superannuation

The Council contributes to a number of Superannuation Funds on behalf of employees. All funds to which the Council contributes are defined contribution plans.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in the statement of financial positions.

Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Collectability of trade and other receivables are reviewed on an ongoing basis. Debts that are known to be uncollectible are written off then identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

Inventories General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land Held for Resale

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding cost until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit and loss at the time of signing an unconditional contract of sale in significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

Fixed Assets

Each class of fixed assets with in either property, plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Mandatory Requirement to Revalue Non-Current Assets

Effective from 1 July 2012, the Local Government (Financial Management) Regulations were amended and the measurement of non-current assets at Fair Value became mandatory.

The amendments allow for a phasing in of fair value in relation to fixed assets over three year as follows:

- a) For the financial year ending on 30th June 2013, the fair value of all of the assets of the local government that are plant and equipment: and
- b) For the financial year ending on 30th June, 2014, the fair value of all of the assets of the local government:
 - (i) That are plant and equipment: and that are –
 - (ii) Land and building; or
 - (iii) Infrastructure;and
- c) For a financial year ending on or after 30th June 2015, the fair value of all of the assets of the local government.

Thereafter, in accordance with the regulations, each asset class must be revalued at least every 3 years.

In 2013, Council commenced the process of adopting Fair Value in accordance with the Regulations.

Relevant disclosures, in accordance with the requirements of Australian Accounting Standards, have been made in the budget as necessary.

Land Under Control

In accordance with Local Government (Financial Management) Regulation 16(a), the Council was required to include as an asset (by 30th June 2013). Crown Land operated by the local government as a golf course, showground, racecourse or other sporting or recreational facility of state or regional significance.

Upon initial recognition, these assets were recorded at cost in accordance with AASB 116. They were then classified as Land and revalued along with other land in accordance with the other policies detailed in the Note.

Initial Recognition and Measurement between Mandatory Revaluation Dates

All assets are initially recognised at cost and subsequently revalued in accordance with the mandatory measurement framework detailed above.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. The assets acquired at no cost or for nominal consideration, cost of determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Council includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework detailed above, are carried at cost less accumulated depreciation as management believes this approximates fair value. They will be subject to subsequent revaluation of the next anniversary date in accordance with the mandatory measurement framework detailed above.

Revaluation

Surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

Transitional Arrangement

During the time it takes to transition the carrying value of non-current assets from the cost approach to the fair value approach, the council may still be utilising both methods across differing asset classes.

Those assets carried at cost will be carried in accordance with the policy detailed in the Initial Recognition section as detailed above.

Those assets carried at fair value will be carried in accordance with the Revaluation Methodology section as detailed above.

Land Under Roads

In Western Australia, all land under roads is Crown land, the responsibility for managing which, is vested in local government.

Effective as at 1 July 2008, Council elected not to recognise any value of land under roads acquired on or before 30 June 2008. This accords with the treatment available in Australian Accounting Standard AASB 1051 Land Under Roads and the fact Local Government (Financial Management) Regulation 16(a)(1) prohibits local governments from recognising such land as an asset.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, Local Government (Financial Management) Regulation 16(a)(1) prohibits local government from recognising such land as an asset.

Whilst such treatment is inconsistent with the requirements of AASB 1051, Local Government (Financial Management) Regulation 4 (2) provides, in the event of such an inconsistency, the Local Government (Financial Management) Regulations prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the council.

Depreciation

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the expired period of the lease or the estimated useful life of the improvements.

Major depreciation periods used for each class of depreciable assets are:

Building	30 to 50 years
Furniture and Equipment	4 to 10 years
Plant and Equipment	5 to 15 years
Sealed roads and street	
Formation	not depreciated
Pavement	50 years
Seal	
Bituminous seals	20 years
Asphalt Surfaces	25 years
Gravel Road	
Formation	Not depreciated
Pavement	50 years
Gravel Sheet	12 years
Formed roads	
Formation	Not depreciated
Pavement	50 years
Footpath – slab	20 Years
Sewerage piping	100 years
Water supply piping and drainage systems	75 years

The assets residual values and useful lives are reviewed and adjusted in appropriate, at the end of each reporting period.

An asset carrying amount is written down immediately to its recoverable amount if the assets carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

Capitalisation Threshold

Expenditure on items of equipment under \$5000 is not capitalised. Rather, it is recorded on an asset inventory listing.

Depreciation following Revaluation

When an asset class is revalued each asset is given a revaluation amount, an estimated remaining useful life and, in the case of plant, furniture and equipment, a minimum written down value*. In order to accurately depreciate the revalued assets, straight line depreciation is recalculated based on remaining useful life. Given the remaining life of these assets will vary greatly, the depreciation rates may not be consistent with the standard depreciation rates set for each class.

New assets will be depreciated at the standard depreciation rate for that class until the revaluation of the class is next performed.

*Plant, furniture and equipment is recorded with a minimum written down value as these assets are generally expected to be sold within their useful life. Assets such as building do not have a minimum written down value applied as they are not generally expected to be sold.

Fair Value of Assets and Liabilities

When performing a revaluation, the Council uses a mix of both independent and management valuations using the following guides:

Fair Value is the price that Council would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific assets. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation Techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset (i.e. the market with the greatest volume and level of activity for the asset or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs)

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

Fair Value Hierarchy

AASB 13 required the disclosure of fair information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of

observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset is included in Level 2.

Valuation Techniques

The Council selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Council are consistent with one or more of the following valuation approaches:

Market Approach

Valuation techniques that use prices and other relevant information generated by market, transactions for identical or similar assets or liabilities.

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost Approach

Valuation techniques that reflect the current replacement cost of an asset as its current service capacity. Each valuation technique inputs that reflect the assumptions that buyers and sellers would use when pricing or liability, including assumptions about risks. When selecting a valuation technique, the council gives priority of those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability and considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

As detailed above, the mandatory measurement framework imposed by the Local Government (Financial Management) Regulation required, as a minimum, all assets carried at a revalued amount to be revalued at least every 3 years.

Initial Recognition and Measurement

Financial assets and financial liabilities are recognised when the Council becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Council commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

Classification and Subsequent Measurement

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest rate method or cost.

Amortised cost is calculated as:

- a) The amount in which the financial asset or financial liability is measured at initial recognition;
- b) Less principal repayments and any reduction for impairment and
- c) Plus or minus the cumulative amortisation of the difference, if any, between the amount, initially recognised and the maturity amount calculated using the effective interest rate method.

Financial Instruments

The effective interest method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

Financial assets at fair value through profit and loss

Financial assets are classified at “fair value through profit and loss” when they are held for trading for purpose of short term profit taking. Assets in this category are classified as current assets. Such assets are subsequently measured at fair value with changes in carrying amount being included in profit or loss.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Loans and receivables are included in current assets where they are expected to mature within 12 months after the end of the reporting period.

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed maturities and fixed or determinable payments that the Council's management has the positive intention and ability to hold to maturity. They are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Held-to-maturity investments are included in current assets where they are expected to mature within 12 months after the end of the reporting period. All other investments are classified as non-current.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories in financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payment.

They are subsequently measured at fair value with changes in such fair value (i.e. gains or losses) recognised in other comprehensive income (except for impairment losses). When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss

Available-for-sale financial assets are included in current assets, where they are expected to be sold within 12 months after the end of the reporting period. All other available for sale financial assets are classified as non-current.

Financial Liabilities

Non-derivative financial liabilities (excl. financial guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in the profit or loss.

Impairment

A financial asset is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a “loss event”) having occurred, which has an impact on the estimated future cash flows of the financial asset(s).

In the case of available-for-sale financial assets, a significant or prolonged decline in the market value of the instrument is considered a loss event. Impairment losses are recognised in profit or loss immediately. Also, any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point.

In the case of financial assets carried at amortised cost, loss events may include: indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions that correlate with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses. After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the

carrying amount is impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance account.

Derecognition

Financial assets are derecognised where the contractual rights of receipt of cash flows expire or the asset is transferred to another party, whereby the Council no longer has any significant continual involvement in the risks and benefits associated with the asset.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

Impairment of Assets

In accordance with Australian Accounting Standards the Council's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another standard (e.g. AASB 116) whereby any impairment loss of a revaluation decrease in accordance with that other standard.

For non-cash generating assets such as roads, drains, public buildings and the like, value in use is represented by the depreciated replacement cost of the asset.

At the time of adopting this budget, it is not possible to estimate the amount of impairment losses(if any) as at the 30th June, 2023.

In any event, an impairment loss is a non-cash transaction and consequently, has no impact on the budget document.

Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the Council prior to the end of the financial year that are unpaid and arise when the Council becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

Employee Benefits

Short-Term Employee Benefits

Provision is made for the Council's obligations for short term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Council's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as part of current trade and other payables in the statement of financial position. The Council's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Other long-Term Employee Benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual report period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wages and salary levels, durations or service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates

that approximate the terms of the obligations. Any measurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Council's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Council does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Provisions

Provisions are recognised when the Council has a legal or constructive obligation, as a result of past events, for which it is probable that an overflow of economic benefits will result and the outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Current and Non- Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the same when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where the Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for sale where it is held as non-current leased on the Council's intention to release for sale.

Comparative Figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current budget year.

Budget Comparative Figures

Unless otherwise stated, the budget comparative figures shown in this budget document relate to the original budget estimate for the relevant item of disclosure.

This policy links to core drivers:

- a) Relationships that bring us tangible benefits (to the Shire and our community)
- b) Our lifestyle and strong sense of community
- c) We are prepared for opportunities and we are innovative to ensure our relevancy and destiny

5. POLICY STATEMENT

Section 5.38 of the *Local Government Act 1995* requires Council to review the performance of the Chief Executive Officer at least once each year. Conducting this review is an important function of Council because the CEO is Council's only employee and it is through this review process that Council can also review the performance of the organisation. At the same time, it is appropriate for Council to also conduct an annual review of the CEO's remuneration package.

The Salaries and Allowance Tribunal (SAT), established under the *Salaries and Allowances Act 1975* (the Act), has responsibility for determining and recommending rates of remuneration for local government CEO's in accordance with sections 7A and 8 of that Act. Rather than determine a specific remuneration package amount, SAT sets the minimum and maximum Total Reward Package (TRP) to be paid or provided to local government CEOs depending on a 'Band' classification structure established by the SAT. The SAT has classified the Shire of Kellerberrin as a Band 4 local government.

Performance Review Panel

- a) The Council shall establish a CEO Performance Review Panel (the Panel) to have carriage and oversight of the Annual Review Process.
- b) The Panel shall be appointed by resolution of Council for a two year term ending on the date of the next ordinary local government election.
- c) The Panel shall comprise up to seven members, including the President as Chairperson.

 - (iii) Provide a recommendation to Council on the appointment of a suitable consultant to assist with the conduct of the review process;
 - (iv) Manage the consultant appointed by Council;
 - (v) Review the results of the performance review process and remuneration review and provide a recommendation to Council on the same; and

- (vi) Discuss possible KPIs and measurements with the CEO for reporting to Council arising from the performance review process.

Appointment of Consultant

- a) Council shall have due regard to the advice of the Panel and shall appoint a suitably qualified and experienced consultant to assist with the conduct of the performance review process in an independent and equitable fashion.
- b) Unless otherwise determined by Council, the selected consultant shall be appointed for a two year term to coincide with the membership term of the Panel.
- c) To ensure the review process is commenced in a timely manner, Council will make the decision to appoint a consultant by no later than one month before the CEO's 12 month anniversary date falls due.
- d) The appointed consultant shall, as a minimum, undertake the following as part of the performance review process:
 - (i) Prepare and distribute a questionnaire to all current Council Members on the extent to which the CEO is considered to have achieved the KPIs and measurements that applied during the review period;
 - (ii) Provide all current Council Members with the opportunity to provide verbal feedback on:
 - the extent to which the CEO is considered to have achieved the KPIs and measurements that applied during the review period;
 - the CEO's responsibilities during the review period; and
 - the organisation's performance during the review period.
 - (i) Conduct a review of the CEO's remuneration package;
 - (ii) Convene and attend at least one meeting between the consultant and the CEO to discuss the feedback received;
 - (iii) Convene and attend at least one meeting between the consultant and the Panel to discuss the feedback received;
 - (iv) Convene and attend at least one meeting between the consultant, the Panel and the CEO to discuss the feedback received; and
 - (v) Provide to the Panel and the CEO an Annual Performance Review report incorporating the results of the review exercise.
 - (vi) Conduct a review of the CEO's Key Performance Indicators (KPIs) and recommend draft KPIs and measurements for the upcoming review period in discussion with the CEO and the Panel.

Roles & Responsibilities The President will be responsible for:
Coordinating the activities of the Panel throughout the review process; and

Two months prior to the completion of the KPI review year falling due, initiating the Request for Quotation (RFQ) process to appoint a consultant in accordance with Council's Purchasing Policy and relevant corporate procedures.

No later than six weeks following the completion of the KPI review year, the CEO shall provide to Council's appointed consultant a written self-assessment of the CEO's own performance against the KPIs and measurements that applied during the review period.

Council's appointed consultant will be responsible for coordinating Council Member feedback on the CEO's self-assessment against KPIs and measurements, and the Manager's feedback on the CEO's leadership behaviours.

The Panel is responsible for:

- a) Presenting a report to Council to appoint a suitable consultant prior to the CEO's anniversary date falling due; and
- b) Overseeing the performance review process and ensuring that a final review report is presented to Council to conclude the process within 3 months of the completion of the former KPI review period.

If a local government election, or another extraordinary event, falls within this 3 month period, the Panel shall establish revised timeframes for the review process in liaison with the CEO.

- The Panel and the CEO shall be responsible for presenting the draft KPIs and measurements to Council for determination within 3 months of the completion of the former KPI review period.
- It is incumbent upon Council Members and senior staff to actively participate in the CEO Performance Review process and to provide feedback in accordance with the provisions of this policy.

KPI Review Period

- If the CEO's anniversary date does not align with the financial year, then over a period of time agreed between Council and the CEO, the CEO's KPI review period (inclusive of remuneration review) will be transitioned to align with the financial year.
- To give effect to clause 4.1, Council and the CEO may agree to conduct a performance review(s) for a period of less than 12 months based on KPIs that align to that same duration of time.

5. POLICY STATEMENT

Upon Council being notified of a death in the community and or receiving a request that the flag be lowered to half-mast in accordance with the following:

The extract below is taken from the following publications:

The Australian National Flag written by Carol & Richardson Flags published in 1995 – The Australian National Flag at Half Mast on page number 16.

“To achieve the half-mast position, the flag should be raised to the top of the flagpole, then in a continuing movement lowered slowly to half-mast. It is important that the flag appears to be at half-mast, and not to have fallen away from the top of the flagpole. This will generally be attained when the top of the flag is one third of the total length of the flagpole from the top.

Before lowering the flag for the day, it should be raised once again to the top of the flagpole and then lowered slowly to the ground.”

Local Resident Burial: The flag is to be flown half-mast on the day of the funeral.

Outside Shire Burial: Once notified the flag is to be flown at half-mast on the day of the funeral.

Food Safety is still vitally important and most of the requirements of the *Food Safety Standards Code 3.2.2* still apply in relation to a Temporary Food Business (TFB).

The definition of a Mobile Food Business according to the Food Act 2008: A food business that operates from premises that are non-permanent; for example food vehicles and caterers.

4. STRATEGIC CONTEXT

This policy links to core drivers:

- a) Relationships that bring us tangible benefits(to the Shire and our community)
- b) Our lifestyle and strong sense of community
- c) We are prepared for opportunities and we are innovative to ensure our relevancy and destiny

5. POLICY STATEMENT

Notification

In accordance with the notification requirements detailed in Clause 4, Standard 3.2.2 of the Code, all food businesses must, before the food business commences any food handling operations, notify the Local Government of:

- their contact details;
- nature of the food business; and
- location of all food premises associated with that food business (within the Shire).

This notification process is a once-off requirement. Notification is also required whenever there is a change to the nature of the business, and/or proprietor (transfer of food business registration fee applies when there is a change of proprietor).

Failure to notify the Local Government of a food business activity creates an offence under the Act.

Registration

All food businesses must 'notify' the Local Government of their intention to operate, regardless of whether they are required to 'register' the business in accordance with the Act. In order to comply with Section 109, a food business must ensure that any premises used in conjunction with the sale of food is approved by the Local Government, as part of the food business' 'registration'.

Certificate of Registration

A formal certificate of registration will be issued to all approved food businesses within the Local Government. Registration and invoicing of annual fees will occur annually, and be valid for the financial year.

Temporary Food Businesses (TFB)

A Temporary Food Businesses will need to register with the Shire of Kellerberrin but will not require Council consent to establish. A temporary food business will go through the registration procedures that a normal food business would go through including having a kitchen/premises and food safe practices that comply with the Food Standards Code. A Temporary Food Business will be able to operate a maximum of 15 times in one financial year without the need to pay an annual food surveillance fee (ie. at the local monthly markets that run on one Sunday per month and 3 nominated events located within the bounds of the Shire of Kellerberrin eg. the Agricultural Society Show, Gala Night). A Temporary Food Business will have a classification no higher than low risk and will not be permitted to operate outside the bounds of the Shire of Kellerberrin. Should the nature of the approved temporary food business change in any way, the Shire of Kellerberrin must be notified of these changes. Re-notification or registration may be required.

Mobile Food Businesses (MFB)

Mobile food businesses are not considered as temporary food businesses. The term is used to indicate a permanent food business that can be moved to new locations and might return to a base overnight. Their design, construction and fit out are usually restricted by space, weight and having to be self-sufficient in water supply, power supply and waste disposal. The *Food Act 2008* requires that Mobile Food Businesses are to be registered with the Shire of Kellerberrin prior to handling, preparing or selling food.

Temporary and Mobile Food Businesses typically include: food vehicles, market and barbecue stalls, and must undertake the notification and, if applicable, the registration process within the Local Government in which they are housed (i.e. food van), or where the food business is located (i.e. where the food is manufactured for sale in a low risk stall). Temporary Food Businesses will be approved and most likely inspected by the Local Government's Environmental Health Officers prior to the commencement of trade, and being permitted to operate. Mobile Food Businesses will be approved and inspected by the Local Government's Environmental Health Officers prior to the commencement of trade and being permitted to operate.

Note: Food may not be prepared in a residential premise, unless it is registered with that local government. Only very low risk- low risk food preparation in a residential setting will be approved within the Shire of Kellerberrin.

- apply for a stallholders or street traders permit within the Local Government in which they intend to operate. Where a permit is sought, the Local Government's Environmental Health Officers will assess the suitability of the TFB/MFB operating within the Local Government. A permit will be issued if the TFB/MFB meets the appropriate requirements.

Fees and Charges

Fees are set under Part 6, Division 5, Subdivision 2 of the *Local Government Act 1995*, and are adopted by Council in the 'Schedule of Fees and Charges' for the relevant financial year.

- Registration – annual food surveillance fees will be charged for all food businesses in accordance with a risk based fee structure, i.e. High/Medium/Low/Very Low Risk. Further details are found in Clause No. 2 – Food Business Risk Profiling. (Temporary Food Businesses are exempt from food surveillance fees)
- Re-inspection fees – additional inspections be charged for inspections that result from an identified serious non-compliance. Serious non-compliances include the issue of an Infringement Notice, Improvement Notice and/or Prohibition Order.
- Temporary Food Businesses and Mobile Food Businesses will be charged a stall holders or street traders licence fee in accordance with the Shire of Kellerberrin Fees and Charges. Each temporary or mobile food business will be subject to a fee in the form of a one-off event (day

by day), a weekly or annual permit for a particular event/location (i.e. Community Recreation Centre regular weekend football fixtures).

- Temporary Food Businesses and Mobile Food Businesses will not be charged a stallholders or street traders fee to operate at events supported by Local Government (e.g. Ag Show, Circus) where an application is received for hire of the facility. All applications are to be submitted within the specified time-frame prior to the event (i.e. 14 days prior).
- Late applications may not be accepted,
- Re-Inspection fees will be invoiced post-event to any food business demonstrating non-compliance with the Local Government's requirements on the day of the event.
- Charitable/Community Temporary Food Premises will not be charged fees, except in the case where a food business demonstrates non-compliance with the Local Government's requirements on the day of the event (invoicing will be undertaken post-event). Further details on requirements and exemptions specific to charity and community events are detailed below.

Exempt Premises under *Food Regulations 2009* (the Regulations):

- Food businesses conducted as fundraising events (see Clause 1.7 –Charity and Community events for further details).
- 'Very Low Risk' food businesses, i.e. those solely selling packaged food that are not potentially hazardous (i.e. newsagency selling confectionary, potato crisps).
- Food businesses that provide complimentary drinks in conjunction with another kind of business, e.g. hairdresser providing complimentary beverages.
- Food businesses conducted in premises that are, or form part of a registered establishment - as per the definition given in the *Export Control Act 1982* (Commonwealth) section 3.

The following categories of food premises are also considered by the Local Government to be eligible for an exemption. These premises will be required to undertake the Notification process, and Register with the Local Government, but will not be charged any notification/annual registration fees, unless the premises is identified to have serious non-compliance issues or a history of non-compliance during routine inspections.

- Public school canteens, where funds directly benefit the school (i.e. not operated by an external contractor)
- Registered not-for-profit organisations, e.g. community child care groups.

Charity and Community Events

Charity and Community Fundraising Events are exempt from some of the requirements under the Act and Regulations provided that:

- all the money raised is for a community or charitable cause; and
- foods produced are not potentially hazardous (i.e. low risk cakes and slices), or are cooked thoroughly for immediate consumption (i.e. sausage sizzles).
- Volunteers who donate food such as cakes, slices and preserves for fundraisers are only permitted to make these foods from home where the food is not 'potentially hazardous' and will still be required to notify the Local Government of their proposed food. Premises used for the preparation of non-potentially-hazardous food by volunteers will not need to be registered, however, these types of food business preparation activities, will need to notify as a Temporary Food Premises.

Preparation of potentially hazardous foods (medium risk and above) must be undertaken in an approved food premises (i.e. commercial kitchen, approved school canteen facility). In this instance, Notification and Registration requirements apply to Charitable and Commercial Events. Waiving of fees is at the discretion of the Local Government (refer to 1.6- Fees and Charges above).

NOTE: 'Potentially hazardous' food products include examples such as: cream cakes, fried rice, curries, soups and casseroles

All food businesses in the Shire are currently assessed using the Food Standards Australia and New Zealand Priority Classification System for Risk Assessment. This risk-based scoring system is designed to classify businesses into priority ratings, based on the risk they present to public health and safety.

The following major risk factors are considered:

- the type of food;
- activity of the business;
- method of processing; and
- customer base (e.g. vulnerable groups).

This Risk Assessment tool has been formally adopted by the Local Government, and will be used to determine whether a premises is profiled as High, Medium, Low Risk or Very Low Risk.

Examples of Typical Food Business Risk Profiling

- High Risk – child care centre, nursing home, smallgoods manufacturer, caterers.
- Medium Risk – restaurant/cafe, delicatessen, bakery, manufacturer, butcher, fast food chain, school canteen.
- Low Risk – liquor shop, fruit and vegetable shop.
- Very Low Risk – newsagency/pharmacy selling confectionary and potato crisps.

Note: profiling also depends on individual premises assessment and takes into account the factors detailed in Clause 2.3 – Inspection Frequency.

Inspection Frequency

All premises will be allocated an initial inspection frequency based on their risk profile, however the following factors must also be taken into consideration:

- performance history of the food business;
- changes to food production or fit-out that affect the inherent risk;
- substantiated complaints; and
- risk reduction programs that may be implemented by a food business (i.e. demonstrated good food safety practices and compliance with a food safety program).

Base inspection frequencies adopted by the Local Government are as follows:

- High Risk- 4-6 monthly
- Medium Risk –4-6 monthly.
- Low Risk – 12 to 18 monthly.
- Very Low Risk (exempt premises) – unlikely to require inspection, to be considered individually, based on health risk and complaints.

Infringement Notice

Section 126 of the Act allows for the issue of an Infringement Notice for 'prescribed offences', within 28 days of the alleged offence being committed. Schedule 3 of the Regulations details recognised offences and associated modified penalties.

The Shire of Kellerberrin Authorised Officers are authorised to issue infringement notices for breaches of the *Food Act 2008* and the relevant Food Safety Standards.

Improvement Notice

Section 62 of the Act allows for the service of an Improvement Notice on the proprietor of a food business if the Authorised Officer believes, on reasonable grounds that a food business is operating a food premises that is:

- unclean or insanitary, or unfit for purpose intended to be used;
- does not comply with a provision of the Food Safety Standards;
- not adequately implementing its food safety program; or
- contravening the Food Standards Code in relation to handling of food intended for sale.

The Shire of Kellerberrin Authorised Officers are authorised to issue improvement notices for breaches

of the *Food Act 2008* and the relevant Food Safety Standards.

The Authorised Officer may, prior to the end of the period specified in the Notice, extend the compliance time frame. The Improvement Notice may also include ancillary or incidental directions. Compliance with a Notice must:

- be noted with the date of compliance on a copy of the Notice; and
- if requested, the Local Government must provide a copy to the person served.

Note: associated re-inspection fees will be charged in accordance with Clause 1.6 – Fees and Charges.

Prohibition Order

A Prohibition Order will take a form that prohibits the handling of food on specified food premises, vehicle or equipment, or that food is not to be handled in a specified way or for a specified purpose. It should be noted that Section 8 of the Act defines food handling very broadly, including activities such as collection, transporting, storing or displaying food. Breach of a Prohibition Order will normally result in prosecution.

A Prohibition Order may be issued if an Improvement Notice has not been complied with, within the specified time or if the initial non-conformance is severe enough to cause an immediate danger to public health.

In accordance with Section 72, the Order:

- must specify the provision of the Code to which it relates; and
- may specify particular action to be taken by a person to ensure compliance with the provision of the Code to which it relates.

The Shire of Kellerberrin CEO is authorised to issue Prohibition Orders for breaches of the *Food Act 2008* and the relevant Food Safety Standards.

Assessment of Plans for Construction and Fit-Out of Food Premises

The assessment of plans for food premises via the Development Application, Building Permit or Food Premises Fit-Out process will be undertaken by the Local Government's Environmental Health Officers in accordance with Standard 3.2.3 of the Code, and Australian Standard 4674:2004 - Design, Construction and Fit-Out of Food Premises.

New construction standards are outcome based and less prescriptive than those detailed in the repealed *Health (Food Hygiene) Regulations 1993*. However, to assist food businesses in achieving appropriate outcomes, the Local Government's Environmental Health Officers will utilise AS 4674:2004 as a recognised design guide and detail examples of compliance with legislative requirements in the Local Government's *A guide to the construction of Food Businesses for Owners, Operators, Architects and Builders*.

Residential Food Businesses (Home Occupation)

The Act does not prohibit food preparation in residential premises, but requires all food businesses to ensure compliance with the Act, which adopts the Code in full (i.e. all food businesses must comply with its requirements).

Chapter 3 of the Code contains the structural and hygiene outcomes that all food businesses must meet. Allowance is made within the Code for some exemptions relating to requirements for food premises that are used principally as a private dwelling if the proprietor has the approval in writing of the appropriate Local Government [e.g. Standard 3.2.2 clause 17(2)].

Prior to a food business receiving approval to operate from a residential food premises within the Local Government, the following must be met:

- Planning Approval for a Home Activity is required to be obtained, whether or not the proposal involves the installation of a commercial grade kitchen.
- Relevant notification/registration requirements in accordance with the Act;

- The structure/fit-out of the premises must be deemed appropriate for the proposed food handling activities, in accordance with Standard 3.2.3 of the Code (i.e. all facilities to be located within the one room); and
- The risk of the food preparation activities assessed (i.e. low risk operations only).

Consideration will also be given to whether the activity is for commercial gain, or for fundraising/charitable purposes.

The Department of Health policy on food businesses that operate from premises that are used principally as a private dwelling, is that the approval for the exemptions contained within the Code should only be granted for those food businesses that have been classified as 'low risk'. Examples include the manufacture of 'cottage industry' goods such as jams, biscuits and preserves. It is considered appropriate that the Local Government adopt the DOH policy in this regard, meaning that medium and high risk food businesses will not be approved to operate from a residential food premises.

Training – Skills and Knowledge

All food businesses must ensure that persons undertaking or supervising food handling operations have appropriate skills and knowledge in relation to food safety and food hygiene matters, in accordance with Standard 3.2.2 of the Code.

A majority of the food industry within the Local Government is involved in the hospitality industry, which traditionally has a relatively high staff turn-over, particularly casual staff. It is strongly recommended that at least one managerial staff member complete the nationally accredited 'Hygiene for Handlers' Certificate, obtained by completing the Online Food Handler Training Course. All other sectors of the food industry are strongly encouraged to seek appropriate training specific to their industry from a registered Training Organisation.

All food business proprietors and other trained staff members are strongly encouraged to impart food safety knowledge to other staff members who are not formally trained, e.g. providing information at team meetings, demonstrating skills, and displaying posters regarding correct practices.

Remote and Isolated Workers Policy**Version:** Current**Responsible Officer:** Chief Executive Officer**1. PURPOSE**

The Shire is committed to ensuring that an effective means of communication is available which will enable any worker who is performing remote or isolated work to call for assistance in the event of an emergency. The Shire is also committed to ensuring that a process is available for regular contact to be made with the worker and that the worker is trained in the process.

2. SCOPE

This procedure applies to all Shire worksites where there are workers who perform remote or isolated work.

3. DEFINITIONS**4. STRATEGIC CONTEXT**

This policy links to core drivers:

- a) Relationships that bring us tangible benefits (to the Shire and our community)
- b) Our lifestyle and strong sense of community
- c) We are prepared for opportunities and we are innovative to ensure our relevancy and destiny

5. POLICY STATEMENT**Working Alone After Regular Working Hours**

Workers are to ensure that their immediate Supervisor is aware that they intend to be working alone after regular working hours. The Supervisor must be advised of the location where the work is intended to be performed, the nature of the work, and the approximate finishing time. Once work has been completed the worker is to advise their supervisor.

Failure to advise the Supervisor that the worker has safely completed the task at hand will result in progressive implementation of response in accordance with pre-agreed timeframes and actions.

Depending upon the nature of the after-hours work which is required to be conducted, additional staff may be required in order to ensure health and safety.

Remote or Isolated Work

A worker is performing remote or isolated work when they are performing work that is isolated from the assistance of other persons because of location, time or nature of the work.

At times workers may be required to work in remote or isolated areas where conventional communications methods (mobile phones, radios, land lines) are ineffective. All personnel, when working in remote or isolated areas must be able to contact the necessary assistance should there be an emergency. This may require alternative methods of communication to be considered.

Shire vehicles are fitted with appropriate communications platforms to ensure that ability to make contact is maintained at all times. Workers should make sure that their communication equipment is working effectively prior to, and following, deployment and report any problems to their supervisor at the earliest possible time.

Workers who have regular contact with members of the public as part of their work are not considered “alone”. However it is recognised that contact with members of the public may in itself pose risks and appropriate risk control measures will be implemented in accordance with the situation that exists.

There is no set minimum time for a worker to be on their own to be considered “alone”, each situation must be considered specific to the relevant factors including the nature of the work, the location, the time of the day, the competencies of the worker, the duration of the tasks being performed and the communication systems available.

Risk Assessment

A risk assessment should be completed by the worker and Supervisor to identify all hazards associated with any remote or isolated work aspects of the task to be completed. Risks must then be assessed and managed in accordance with legislative requirements.

All workers are responsible for taking reasonable measures to ensure their own safety and personal security when working in isolation, including compliance with all Shire systems of work and communication requirements.

Communication Method

The means of communication will depend on the circumstances and the risks inherent in the work.

Communication systems may include fixed phones, mobile phones, two-way radio, personal locating beacons or satellite phones. The means of communication to be employed will be appropriately maintained and tested, prior to deployment, to ensure that the system remains operational and effective.

Communications Process

As the Shire conducts operations over a diverse range of conditions and geographical locations, definition of a single communications procedure to fit all circumstances where an remote or isolated worker may be engaged is impracticable.

The following general process will be applied as a methodology to achieving the organizational aim of a legislatively compliant and safe workplace:

- Assess the work situation pre-deployment, including:
 - Geographical location
 - Whether workers will be performing remote or isolated work
 - Determine viable communications methods for the situation – including communications systems test for effectiveness
- Determine an appropriate call in schedule;
- Determine an action schedule which will be progressively implemented in the instance of a scheduled call in being missed;
- Determine the system of work that will be utilised to minimise risks; and
- Ensure that all persons involved in the remote or isolated work are trained in the system of work that will be implemented, including effective communications which are to be utilised, and are fully aware of what actions will be initiated in the event of a scheduled call in failing to be logged.

Responsibilities

Shire Management Responsibilities

The Shire is responsible for ensuring legislative requirements associated with remote or isolated workers at the workplace are fulfilled, including provision of adequate resources to fulfil these requirements and maintenance of associated records in accordance with designated timeframes.

Shire Supervisors Responsibilities

Shire Managers and Supervisors are responsible for ensuring remote or isolated worker management practices are subject to a risk assessment process and that safe systems of work are subsequently effectively implemented within their area of control, so as to assist the Shire in fulfilling their legislative obligations

All Personnel on Site Responsibilities

All persons within the Shire are responsible for conforming to the remote and isolated worker risk management processes and associated safe systems of work, so as to assist the Shire in fulfilling their legislative obligations
